WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics *Afrikaans Linguistics Contemporary Perspectives* marks a seminal contribution to the field This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics **Zulu Warriors** John

Laband, 2014-05-27 The Anglo Zulu War the most famous of Britain's late nineteenth century campaigns of colonial conquest was not fought in isolation Along with the two Anglo Pedi wars the Ninth Cape Frontier War and the Northern Border War it was one in a brutal series of interconnected and overlapping wars which the British waged between 1877 1879 to crush and disarm the remaining independent black states of South Africa Fusing the widely differing African and European perspectives on events the author probes the fateful decisions taken by statesmen and military commanders analyses military operations and their destructive impact on combatants and civilians alike and explores why so many Africans chose to fight as auxiliaries and levies alongside the British instead of against them Jacket **Education for All 2000-2015: Achievements and challenges** UNESCO, 2015-04-08 Literaturverz S 414 459 **The Oxford Guide to the Bantu Languages** Lutz

Marten, Ellen Hurst-Harosh, Nancy C. Kula, Jochen Zeller, 2025-08-19 This volume brings together leading scholars from Africa Europe the Americas and beyond to provide a detailed account of the languages of the Bantu family which cover an area from Cameroon and Kenya in the north to South Africa in the south The Bantu family is part of the Niger Congo phylum and one of

the world's biggest language groups comprising around 500 languages. The family includes major languages with large numbers of speakers such as Zulu, Kinyarwanda and Swahili, the most widely spoken and taught African language as well as many community languages and several endangered languages. Bantu languages feature prominently in the complex and multilingual language ecologies that are characteristic of the linguistic situation in much of Africa and they provide rich evidence for the study of theoretical and comparative linguistics, language contact and language change. They play an important role in education, commerce, culture and artistic expression in the media and public discourse in governance and social justice and are central to the future of the continent and the well-being of its communities. The first part of *The Oxford Guide to the Bantu Languages* provides background and context with chapters exploring the history of research in the field, language and prehistory in Bantu-speaking Africa and typology and variation. Chapters in the second part offer broad comparative overviews of Bantu phonology, morphology, syntax, semantics and pragmatics, socio and applied linguistics, before Parts III-VII cover more specific topics in Bantu linguistics across a variety of subfields ranging from structural issues such as the augment and melodic tone to historical and sociolinguistic topics such as Bantu languages in the diaspora and language policy and standardization. The chapters in the final part offer individual structural overviews of a range of languages from across the Bantu-speaking area. The book will be an essential resource for students and researchers specializing in the Bantu languages and for typologists and comparative linguists more broadly.

A scholarly contribution to educational praxis M.A. Mokoena, J.M. (Ona) Janse van Rensburg, M. Erasmus, E. Mentz, C.B. Zulu, A. Cronje, E.K. Materechera, W.T. Dudu, A.T. Kanyimba, S.P. Raath, C. Kruger, A. Loubser, A.E. Pienaar, A. Klopper, S. Ellis, N.T. Petersen, J. de Beer, J. Varughese, A. Seugnet Blignaut, C. Els, 2016-12-31. This publication contains original research targeting scientific specialists in the field of education through research endeavours grounded on a philosophical basis as well as being embedded in the empirical. The research methodology of each chapter emanates from applicable philosophical assumptions in the form of an applicable theoretical and conceptual framework. The latter forms a firm basis for the application of sound empiricism. The content of this book adds to the body of scholarly knowledge in education. In his evaluation of the book, Acting Executive Dean Faculty of Education and Training Professor Akpovire Oduaran made the following remarks: To a large extent the ideas put together in this book have come from data generated not just from literature found in books and journals but actual interactions with educators and the learning environment. So then what the reader is offered in this volume is the articulation of ideas that have been interrogated, structured and presented in surprisingly simplistic and yet incisive and academically enriching content that can match the standards of scholarship that is available in the Western World. Yet what makes this book so welcome, relevant and timely is the fact that it is built around Afrocentric theories and practices such as one may find in imported literature.

Delivering Entrepreneurship Education in Africa Chux Gervase Iwu, Richard Shambare, 2023-12-14. *Delivering Entrepreneurship Education in Africa* brings together a collection of academic studies that offer an in-depth analysis of the

current state of entrepreneurship education in Africa The chapter authors engage discussions on how to make entrepreneurship education an attractive field of study for African students *Extended Curriculum Programmes* Tennyson Mgutshini,2022-04-30 The introduction of ECPs in South African Universities is seen by many as South Africa s key strategy for addressing the problem of poor patterns of student success and has its basis on the uncontested acceptance that an extended study duration may be necessary to bring some categories of learners to a level of parity with the readiness expectations of their course of study Even so this transformative strategic imperative has been plagued by a range of challenges that include poor systems readiness poor selection mechanisms in the identification of ECP students poor numeracy and literacy amongst students and indifferent teacher involvement in ECPs This volume offers a rare insight into many of the above recognised challenges and in so doing provides critical matter for thought for educators within the higher education sector

Race for Education Mark Hunter,2019-01-24 An examination of families and schools in South Africa revealing how the marketisation of schooling works to uphold the privilege of whiteness [L. S. Vygotsky and English in Education and the Language Arts](#) Peter Smagorinsky,2023-10-09 L S Vygotsky and English in Education and the Language Arts focuses on the hugely significant contributions of L S Vygotsky to research theory and practice in English and the Language Arts exploring the relevance of Vygotsky s works for today s teachers and researchers Drawing on his 30 years of study Smagorinsky interprets Vygotsky in relation to literacy education teacher education special education and how life outside school has an impact on how people function within them This insightful and accessible text firstly explores Vygotsky s early life to situate him historically and culturally and goes on to trace his understanding of human psychology as it relates to the social contexts of schools and pupils lives at home Vygotsky s pedagogical ideas are then discussed in depth with specific attention on the role of emotions the zone of proximal development expanding textuality beyond writing and his belief in the primacy of socialization This book illuminates new areas of understanding and challenges common perceptions available through limited and selective readings establishing Vygotsky as a complex developmental psychologist rather than a classroom practitioner With points for discussion and reflection provided throughout this text will be invaluable for student teachers teachers and academics in the field of English and the Language Arts
