MOOCs in the Education of the Future: Digitizing Training Fundación Telefónica, 2015-02-03 This monographic tackles the challenges faced by MOOC Massive Open Online Courses which are mainly to give free quality education for as much students as possible offering personalized training improving contact between teacher and students finding appropriate means of evaluation measuring attendance and attesting the level of completion through certificates etc However we need to bear in mind that this is not merely a technological movement but rather the beginning of a more general trend that might transform the models that have been in place for the last century making way for new pedagogical methods such as learning through exploration or even gamification What we have before us are much more than tools for the massive dissemination of content it is actually a phenomenon with the potential to disrupt whose final impact cannot be accurately predicted which is why various scenarios are contemplated in the monographic

Unified Field Mechanics: Natural Science Beyond The Veil Of Spacetime - Proceedings Of The IX Symposium Honoring Noted French Mathematical Physicist Jean-pierre Vigier Richard L Amoroso, Louis H Kauffman, Peter Rowlands, 2015-09-08

Unified Field Mechanics the topic of the 9th international symposium honoring noted French mathematical physicist Jean Pierre Vigier cannot be considered highly speculative as a myopic critic might surmise The 8th Vigier Symposium proceedings The Physics of Reality should in fact be touted as a companion volume because of its dramatic theoretical Field Mechanics in additional dimensionality Many still consider the Planck scale zero point field stochastic quantum foam as the basement of reality This could only be considered true under the limitations of the Copenhagen interpretation of quantum theory As we enter the next regime of Unified Field Mechanics we now know that the energy dependent Einstein Minkowski manifold called spacetime has a finite radius beyond which a large scale multiverse beckons So far a battery of 14 experiments has been designed to falsify the model When the 1st is successfully performed a revolution in Natural Science will occur This volume strengthens and expands the theoretical and experimental basis for that immanent new age

Global Discontents Noam Chomsky, David Barsamian, 2017-12-05 In this compelling set of interviews the intellectual discusses contemporary threats to democracy from economic inequality to the Trump presidency In wide ranging discussions with David Barsamian his longtime interlocutor Noam Chomsky asks us to consider the world we are leaving to our grandchildren one imperiled by climate change and the growing potential for nuclear war If the current system is incapable of dealing with these threats he argues it's up to us to radically change it The twelve interviews in Global Discontents examine the recent global developments the rise of ISIS the reach of state surveillance growing anger over economic inequality conflicts in the Middle East and the presidency of Donald Trump In personal reflections on his Philadelphia childhood Chomsky also describes his own intellectual journey and the development of his uncompromising stance as America's premier dissident intellectual Well informed salvos to please or enrage depending on one's politics Kirkus Reviews

Anderson,2021-04-01 How can markets help us adapt to the challenges of climate change Editor Terry L Anderson brings

together this collection of essays featuring the work of nine leading policy analysts who argue that market forces are just as important as government regulation in shaping climate policy and should be at the heart of our response to helping societies adapt to climate change Anderson notes in his introduction that most current climate policies such as the Paris Agreement require hard to enforce collective action and focus on reducing or mitigating greenhouse gases rather than adapting to their negative effects Adaptive actions can typically deliver much more faster and more cheaply than any realistic climate policy The authors tackle a range of issues the hidden costs of renewable energy sources the political obstacles surrounding climate change policy insurance and financial instruments for pricing risk of exposure to the effects of climate change and more Reliance on emerging renewable energies and a carbon tax are not enough to prevent the effects of global warming they argue We must encourage more private action and market incentives to adapt to a rapidly changing climate

Energy Resilient Buildings and Communities Brian Levite,Alex Rakow,2020-12-17 This book is written as a practical guide to those interested in the pursuit of energy resilience at a local scale Energy resilience is defined as the relative ability of an institution to carry out its mission during a shock to the energy system and approach the concept on the level of a single site occupied by a single community or institution Examples are drawn from four key community types military bases healthcare campuses educational campuses and municipal governments The book then describes a framework for developing an energy resilience plan that applies to each While the focus is clearly on the United States understanding the energy resilience threat and conducting long range energy resilience planning will benefit communities all over the globe Divided into three main parts Part One describes the specific energy security threats that are facing local institutions and communities and how an energy shock can affect the mission at each of the four community types and the advantages that each will enjoy in their pursuit of energy resilience Part Two provides concrete guidance for pursuing energy resilience at a particular institution and allows managers to assess where their institution lies on the energy resilience spectrum and plot a course toward where they would like to be Part Three describes the three main areas of energy resilience performance energy efficiency on site generation and emergency planning Case studies are also provided
