

Datum / Date:	September 2024
Tyd / Time:	1 hour
Punte / Marks:	70 marks
Grader / Grade:	9
Wsk / Subject:	Natural Sciences
Waal / Paper:	ONCT 1

Naam en Van / Name and Surname: _____

General instructions for the writing of exams:

1.	Quickly scan through your entire paper.
2.	Read the question twice before you begin.
3.	Make sure to answer ALL questions.
4.	Write neatly and legibly.
5.	If you struggle too much with a question, move on to the next one and return once you have answered all the other questions.
6.	If the question calls for a longer answer, plan before you start writing.
7.	For any answer longer than 1-2 words, always write in full sentences.
8.	Make sure every point you make refers to the central question.
9.	Use correct grammar, spelling, and punctuation to the best of your ability.
10.	If you make a mistake, cross it out clearly with a single, horizontal line and write the correct answer instead.
11.	Number the answers correctly according to the numbering system used in this question paper.
12.	Present your answers according to the instructions for each question.

Good luck with your exam!

Keith Barnham,2015-05-15 Our society faces a choice We could be enjoying a sustainable lifestyle but we have chosen not to In three generations we have consumed half the oil produced by photosynthesis over eight million generations In two generations we have used half our uranium resources With threats from global warming oil depletion and nuclear disaster we are running out of options Solar power as Keith Barnham says is our necessary solution Barnham explains that the roots of solar energy lie in a little known equation $E = hf$ an equation which was coincidentally celebrated and explained to the world by Einstein in the same year he discovered $E = mc^2$ He alleges that the former equation has been overlooked in favor of the latter much to our detriment and Barnham is here to offer us a solution We can still turn things around and solar energy is the key In this provocative inspiring passionately argued book Keith Barnham outlines actions that any one and all of us can take to make an impact now and on future generations The Burning Answer is a solar manifesto for the new climate aware generation and a must read for climate change skeptics *Questions and answers for job interview Offshore Drilling*

health Each of the book's four sections includes an introduction that contextualizes the issues and addresses the larger stakes of his work. An afterword discusses the significance of Grossman's approach for subsequent research on health economics as well as the work others have done to advance and extend his innovative perspective. *Determinants of Health* explains how the economic choices people make influence health and health behaviors. It begins with a section on the theoretical underpinnings and empirical results of Grossman's groundbreaking health economics model first introduced in the 1970s, followed by essays on the relationship between health and schooling, determinants of infant health with a special emphasis on public policies and programs, and the economics of unhealthy behaviors. Grossman treats health as a form of human capital. He shows that public policies and programs that determine the price and availability of key inputs have critical effects on outcomes ranging from birth weight and infant mortality to cigarette smoking, alcohol abuse, illegal drug use, and obesity. Grossman's approach has led to a major stream of literature in the field, sparking contributions by the world's leading health economists, including Joseph Newhouse, Jonathan Gruber, Amy Finkelstein, Michael Greenstone, and David Cutler. His clarity on the role that economics play in people's good and bad health choices is immensely valuable to the debate over how we legislate and spend on health.
