The Education Triple Cocktail Brahm Fleisch, 2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents **Race for Education** Mark Hunter, 2019-01-24 An examination of families and schools in South Africa revealing how the marketisation of schooling works to uphold the privilege of whiteness **Multilingual Education Yearbook 2021** Anthony A. Essien, Audrey Msimanga, 2021-05-04 This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they policy and practice impact on educational processes developments and outcomes The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts This book is of interest to stakeholders involved in STEM education such as researchers undergraduate and graduate students tertiary level teachers teacher educators curriculum developers as well as other professionals with responsibilities in STEM education subjects The book is written in a way that is accessible to a wide range of backgrounds including those who are in language education Handbook of Quality of Life in African Societies Irma Eloff, 2019-08-09 This handbook reflects on quality of life in societies on the continent of Africa It provides a widely interdisciplinary text with insights on quality of life from a variety of scientific perspectives The handbook is structured into sections covering themes of social context culture and community the environment and technology health education and family It is aimed at scholars who are working towards sustainable development at the intersections of multiple scientific fields and it provides measures of both objective and subjective quality of life The scholarly contributions in the text are based on original research and it spans fields of research such as cultures of positivity wellbeing literacy and multilingualism digital and mobile technologies economic growth food and nutrition health promotion community development teacher education and family life Some chapters take a broad approach and report on research findings involving thousands and in one case millions of participants Other chapters zoom in and illustrate the importance of specificity in quality of life studies

Collectively the handbook illuminates the particularity of quality of life in Africa the unique contextual challenges and the resourcefulness with which challenges are being mediated This handbook provides empirically grounded conceptualizations about life in Africa that also encapsulate the dynamic ingenious ways in which we as Africans enhance our quality of life

The Oxford Handbook of Africa and Economics Célestin Monga,Justin Yifu Lin,2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this lhandbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa s contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists

Gustafsson Nompumelelo L Mohohlwane Nangamso Mtsatse Elizabeth Pretorius Karen Roux Claudia Schreiner Tobias Schroedler Nick Taylor Stephen Taylor Surette van Staden and Hans Wagemaker Student Misconceptions and Errors in Physics and Mathematics Teresa Neidorf, Alka Arora, Ebru Erberber, Yemurai Tsokodayi, Thanh Mai, 2019-10-30 This open access report explores the nature and extent of students' misconceptions and misunderstandings related to core concepts in physics and mathematics and physics across grades four, eight and 12. Twenty years of data from the IEA's Trends in International Mathematics and Science Study (TIMSS) and TIMSS Advanced assessments are analyzed specifically for five countries: Italy, Norway, Russian Federation, Slovenia, and the United States, who participated in all or almost all TIMSS and TIMSS Advanced assessments between 1995 and 2015. The report focuses on students' understandings related to gravitational force in physics and linear equations in mathematics. It identifies some specific misconceptions, errors, and misunderstandings demonstrated by the TIMSS Advanced grade 12 students for these core concepts and shows how these can be traced back to poor foundational development of these concepts in earlier grades. Patterns in misconceptions and misunderstandings are reported by grade, country, and gender. In addition, specific misconceptions and misunderstandings are tracked over time using trend items administered in multiple assessment cycles. The study and associated methodology may enable education systems to help identify specific needs in the curriculum, improve instruction across grades, and also raise possibilities for future TIMSS assessment design and reporting that may provide more diagnostic outcomes.

Scything Time Alan Hall, 2015-01-07 I believe that I will make a better future is a popular notion of political, religious, educational, and business leaders. To believe is to think that something is true or real. This does not mean it is true. Beliefs become opinions which are fixed and non-negotiable. It is difficult to exchange ideas when a sentence starts with 'I believe' and there is no backup of fact. The belief is irrelevant and the behaviour will determine the state of the future. Western leadership drowns in greed, entitlement, belief, and gross ignorance, while those who follow scramble for the remnants of bad behaviour. Zionism is a quasi-Christian Jewish belief that has distorted behaviour for 3000 years. Western leaders do not understand that unshared wealth is a crime against humanity. **ICT-Based Assessment, Methods, and Programs in Tertiary**

Education Meri Yilan, Serpil, Koruyan, Kasim, 2020-04-17 The use of information and communication technologies (ICTs) in education has revolutionized learning. Shifting beyond traditional mode of education, the integration of ICTs has become an advantage for students at tertiary education when used for the right purpose to enhance learning. The use of technology brings forth a flexible and accessible mode of education and bridges the gap of learning across borders. This enables students at tertiary level to have access to other universities and academic resource materials globally, thereby expanding their knowledge. Thus, it is crucial to consider the development of technology in education as part of a comprehensive pedagogical framework and take into account new developments in ICTs. **ICT Based Assessment Methods and Programs in Tertiary Education** is an essential research publication that provides relevant theoretical frameworks and recent empirical research.

two Just as they are becoming settled after some trials Nkanyiso informs his adopted father that a male teacher has been sexually harassing him at school Jake does his best to protect his adopted son but neither of them is really prepared for the onslaught when Jake complains to the school Each of them has to deal with the others different world view Jakes respect for Zulu customs does not extend to funding Nkanyisos mothers training to become an isangoma money is too tight Nkanyiso wants to believe that no spirit can harm him as Jake says but the dark sorcerer hounds him continually and he starts to despair It is a story of bad things happening to ordinary people An adopted father and an adopted son against the background of a country still coming to terms with democracy

Wrecking Ball Stu Woolman, 2021-04-29

Wrecking Ball explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday Wrecking Ball shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world s 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children s inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy Wrecking Ball offers as an answer a ground breaking analysis of South Africa s political economy It demonstrates that this country s elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet
