

was odd, but this seemed to be the daily pattern. Almost without change I ask my kids on the way home about homework with my eighth grade son more often having no homework, while my sixth grade daughter usually has one-two hours every night. I find it highly odd as a parent and a new teacher that one child has so much homework and is barely passing her classes, while the other has relatively no homework and earns all B's and A's.

Based upon this odd phenomenon, I decided to research the task of homework. My reasoning was I hoped to discover why this is occurring occurs and why homework seemed to be so unbalanced between the grades. Being primarily a high school substitute teacher, I thought I would begin at the high school level for this research project and if the opportunity arises, perhaps in the future, expand my research into the middle and possibly the elementary school grade levels.

After deep consideration and limited access to high school students, I decided on a series of questionnaires to give dimension to my results: high school students ninth through twelfth grades), high school teachers, and the corresponding parents of those students. The questionnaires would be slightly different from the other. My thoughts include an attempt to find the differing perspectives of the three subject groups as to their points of view of homework, what forms of homework may be more beneficial for the student, and what are the expectations are as to the participation of each in the homework process. Should parents help or not with homework, do teachers need to review (grade) and follow up with each student (if so, how) and what expectations do teachers and parents have for their student/child to complete the homework?

**Your Average Nigga** Vershawn Ashanti Young,2007-03-01 An engrossing autobiographical exploration of black masculinity as a mode of racial and verbal performance In *Your Average Nigga* Vershawn Ashanti Young disputes the belief that speaking Standard English and giving up Black English Vernacular helps black students succeed academically Young argues that this assumption not only exaggerates the differences between two compatible varieties of English but forces black males to choose between an education and their masculinity by choosing to act either white or black As one would expect from a scholar who is subject to the very circumstances he studies Young shares his own experiences as he exposes the factors that make black racial identity irreconcilable with literacy for blacks especially black males Drawing on a range of interdisciplinary scholarship in performance theory and African American literary and cultural studies Young shows that the linguistic conflict that exists between black and white language styles harms black students from the inner city the most If these students choose to speak Standard English they risk alienating themselves from their families and communities and if they choose to retain their customary speech and behavior they may isolate themselves from mainstream society Young argues that this conflict leaves blacks in the impossible position of either trying to be white or forever struggling to prove that they are black enough For men this also becomes an endless struggle to prove that they are masculine enough Young calls this constant effort to display proper masculine and racial identity the burden of racial performance Ultimately Young argues that racial and verbal performances are a burden because they cannot reduce the causes or effects of racism nor can they denaturalize supposedly fixed identity categories as many theorists contend On the contrary racial and verbal performances only reinscribe the essentialism that they are believed to subvert Scholars and teachers of rhetoric performance studies and African American studies will enjoy this insightful volume

The independence of rating agencies Jochen Schweizer, 2014-11-12 Seminar paper from the year 2011 in the subject Business economics Controlling grade 2.0 Rhine-Waal University of Applied Sciences language English abstract

Since the financial crisis in 2008, rating agencies are in the spotlight. Often they were blamed by politicians and economists for causing the crisis because they rated some financial products with an excellent grade without exactly knowing what was really behind these products. To understand why and how Credit Rating Agencies like Standard Poors, Fitch, and Moody's rate, we have to look closer at the CRA and their rating in order to understand how they work. In this research paper, I will take a critical look at these institutions. I will talk about the independence of these global-oriented enterprises and I will analyze their impact on the financial market and the politics in order to demonstrate why they are so powerful like quoted above.

**Road Map Through the Wilderness** Donald F. Claycomb, 2020-06-17 Too many of us are caught in wilderness experiences and do not know how to get out, why we should get out, or what to do when we do get out. Satan's agenda is for us to go into the wilderness and never emerge. God has an agenda for us to go into the wilderness for a short time, learn something, and leave with power and anointing, all to be sent to fulfill who God created us to be, just as Jesus did. Roadmap Through the Wilderness is a call to engage darkness, a guide for how to engage, understanding God's purpose for engaging, and a preview of the predictable results when we do engage. It illustrates the church's unique calling; today we are authorized to bring forth power and anointing. Jesus walked into the wilderness filled with the Holy Spirit. He walked out of the wilderness with the power of the Holy Spirit. You can too. Discover by Jesus' example how to walk more like Him where you are in our wilderness, walk, and how to move out and move on. It is a process Jesus walked the road. We see the road map. It is a Roadmap Through the Wilderness.

**Self-Regulation and the Common Core** Marie C. White, Maria K.

DiBenedetto, 2015-03-27 The Common Core State Standards for English Language Arts created new challenges for teachers and pre-service instructors. Self-regulated learning using one's thoughts, feelings, and behaviors to reach goals can help students become independent, self-directed learners. This book provides educators the support they need to apply the principles of self-regulated learning in their teaching for success with the Common Core. In this book, Marie C. White and Maria K. DiBenedetto present information on how to apply academic self-regulation by integrating two models, one which addresses how students develop self-regulatory competence, the other which focuses on the various processes within the three phases of self-regulated learning. In addition, Self-Regulation and the Common Core provides specific lesson plans for grades K-12 using the standards and the integrated framework to promote higher-order thinking and problem-solving.
