## BOOM! AUDIO AMPLIFIER KIT

### GENERAL

#### Kit Number

760000278

#### Models

For model fitment information, see the PSA retail catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com) (English only).

### WARNING

The rider's safety depends upon the correct installation of this kit. Use the appropriate service manual procedures. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (000335a)

### NOTE

This instruction sheet refers to service manual information. A service manual for this year/model motorcycle is required for this installation. One is available from a Harley-Davidson dealer.

### Electrical Overload

### NOTICE

It is possible to overload your vehicle's charging system by adding too many electrical accessories. If the combined electrical accessories operating at any one time consume more electrical current than the vehicle's charging system can produce, the electrical consumption can discharge the battery and cause damage to the vehicle's electrical system. See an authorized Harley-Davidson dealer for advice about the amount of current consumed by additional electrical accessories or for necessary wiring changes. (00211c)

The purchase of this kit entitles you to a specially developed sound equalization software that is used with the Advanced Audio System. This unique equalization was designed to optimize the performance and sound response of the BOOM! Audio firing lower speakers. Even if a Harley-Davidson dealer does not perform this installation, this special equalization software is available without charge from any dealer through Digital Technician II. Dealer labor notes could apply for the upgrade procedure.

### WARNING

When installing any electrical accessory, be certain not to exceed the maximum amperage rating of the fuse or circuit breaker protecting the affected circuit being modified. Exceeding the maximum amperage can lead to electrical failures, which could result in death or serious injury. (00310a)

This amplifier requires up to 8 amps more current from the electrical system.

### Kit Contents

See Figure 1-1 and Table 3.

### Preparation

### NOTE

For vehicles equipped with security alarm:

- Verify that the Hands-Free Fob is present.
- Turn ignition on.
- 1. See the service manual. Follow the instructions to remove the seat, fuel tank, outer fairing and air duct.
- 2. See Figure 1. Remove the wire trough cover.

### NOTE

Electrical connectors are identified in the service manual by the numbers and letters shown here within brackets.
