Society 5.0 Bruno Salgues, 2018-08-21 Following the rapid development of connected technologies which are now highly sophisticated and spread across the globe Society 5 0 has emerged and brought with it a dramatic societal shift In 1998 Kodak the world leader in photographic film had 170 000 employees It thus seemed unthinkable that just 3 years later the majority of people would stop taking photographs to paper film and that Kodak would have disappeared These are the stakes of this new society that is taking shape This book which does not seek to critique current politics management or marketing literature aims to fight against the excesses of this often misunderstood Society 5 0 and to present the ideas and associated technologies that comprise it all working towards societal improvement Among these technologies artificial intelligence robotics digital platforms and 3D printing are undoubtedly the most important and thus receive the greatest focus **De la**

International Congress of the International Association for the History of Religions* International Association for the History of Religions, 1908 **The Corruption of Angels** Mark Gregory Pegg, 2009-01-10 On two hundred and one days between May 1 1245 and August 1 1246 more than five thousand people from the Lauragais were questioned in Toulouse about the heresy of the good men and the good women more commonly known as Catharism Nobles and diviners butchers and monks concubines and physicians blacksmiths and pregnant girls in short all men over fourteen and women over twelve were summoned by Dominican inquisitors Bernart de Caux and Jean de Saint Pierre In the cloister of the Saint Sernin abbey before scribes and witnesses they confessed whether they or anyone else had ever seen heard helped or sought salvation through the heretics This inquisition into heretical depravity was the single largest investigation in the shortest time in the entire European Middle Ages Mark Gregory Pegg examines the sole surviving manuscript of this great inquisition with unprecedented care often in unexpected ways to build a richly textured

understanding of social life in southern France in the early thirteenth century He explores what the interrogations reveal about the individual and communal lives of those interrogated and how the interrogations themselves shaped villagers perceptions of those lives The Corruption of Angels similar in breadth and scope to Emmanuel Le Roy Ladurie s Montailou is a major contribution to the field It shows how heretical and orthodox beliefs flourished side by side and more broadly what life was like in one particular time and place Pegg s passionate and beautifully written evocation of a medieval world will fascinate a diverse readership within and beyond the academy

**The Catholic Faith and the Social Construction of Religion** Peter Stuart, Allan M. Savage, 2011-09-02 The intent behind this book is to provide grist for the mill for research students and other interested readers Chapter one by author Allan Savage presents an understanding of the social construction of religious activity which maintains that social construction of religion arises from a dialectical engagement within the world from a phenomenological philosophical point of view Co author Peter Stuart presents a classical and traditional point of view and readers expecting academic accord between the authors will be disappointed A further rationale for writing this book is that both Savage and Stuart desire to express their personal convictions in the public forum Both have interests in the ebb and flow of civilization especially as it pertains to the place of faith religion politics and a variety of social phenomena including economics culture gender ethnicity and the family as well as the ebb and flow of money power property and prestige as articulated throughout history They believe that writing about the place of faith and religion in French Canada is crucial if one is to understand the place that this keystone civilization occupies within confederation and its enduring ambivalence regarding its belonging or not to Canada

Napoleon and de Gaulle Patrice Gueniffey, 2020-05-12 An Australian Book Review Best Book of the Year One of France s most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals for better and worse matter in history Historians have taught us that the past is not just a tale of heroes and wars The anonymous millions matter and are active agents of change But in democratizing history we have lost track of the outsized role that individual will and charisma can play in shaping the world especially in moments of extreme tumult Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders Napoleon Bonaparte and Charles de Gaulle Both became national figures at

times of crisis and war They were hailed as saviors and were eager to embrace the label They were also animated by quests for personal and national greatness by the desire to raise France above itself and lead it on a mission to enlighten the world Both united an embattled nation returned it to dignity and left a permanent political legacy in Napoleon s case a form of administration and a body of civil law in de Gaulle s case new political institutions Gueniffey compares Napoleon s and de Gaulle s journeys to power their methods their ideas and writings notably about war and their postmortem reputations He also contrasts their weaknesses Napoleon s limitless ambitions and appetite for war and de Gaulle s capacity for cruelty manifested most clearly in Algeria They were men of genuine talent and achievement with flaws almost as pronounced as their strengths As many nations not least France struggle to find their soul in a rapidly changing world Gueniffey shows us what a difference an extraordinary leader can make **Grand Dictionnaire Universel [du XIXe Siecle] Francais: A-Z**
