Nolan-Ferrell, 2012-05-01 During the late nineteenth and early twentieth centuries people living in the coffee producing region of the Sierra Madre mountains along the Pacific Coast of Mexico and Guatemala paid little attention to national borders The Mexican Revolution particularly during the 1930s reconstruction phase ruptured economic and social continuity because access to revolutionary reforms depended on claiming Mexican national identity Impoverished often indigenous rural workers on both sides of the border used shifting ideas of citizenship and cultural belonging to gain power and protect their economic and social interests With this book Catherine Nolan Ferrell builds on recent theoretical approaches to state formation and transnationalism to explore the ways that governments elites and marginalized laborers claimed and contested national borders By investigating how various groups along the Mexico Guatemala border negotiated nationality Constructing Citizenship offers insights into the complex development of transnational communities the links between identity and citizenship and the challenges of integrating disparate groups into a cohesive nation Entwined with a labor history of rural workers Nolan Ferrell also shows how labor struggles were a way for poor Mexicans and migrant Guatemalans to assert claims to national political power and social inclusion Combining oral histories with documentary research from local regional and national archives to provide a complete picture of how rural laborers along Mexico's southern border experienced the years before during and after the Mexican Revolution this book will appeal not only to Mexicanists but also to scholars interested in transnational identity border studies social justice and labor history

A History of Infamy Pablo Piccato, 2017 A History of Infamy explores the broken nexus between crime justice and the truth in mid twentieth century Mexico Facing the violence and impunity that defined politics policing and the judicial system in post revolutionary times Mexicans sought truth and justice outside state institutions During this time the criminal news beat and crime fiction flourished Civil society's search for truth and justice lead paradoxically to the normalization of extrajudicial violence and neglect for the rights of victims As Piccato demonstrates ordinary people in Mexico have made crime and punishment central concerns of the public sphere during the last century and in doing so have shaped how crime and violence took form over time Provided by publisher

Natural History Carlos Fonseca, 2020-07-14

Just before the dawn of the new millennium, a curator at a New Jersey museum of natural history receives an unusual invitation from a celebrated fashion designer. She shares the curator's fascination with the secrets of the animal kingdom with camouflage and subterfuge, and she proposes that they collaborate on an exhibition the nature of which remains largely obscure even as they enter into a strange relationship marked by evasion and elision. Seven years later, after the designer's death, the curator recovers the archive of their never-completed project. During a long night of insomnia, he finds within the archive a series of clues about the true history of the designer's family, a mind-bending puzzle that winds from Haifa, Israel, to bohemian 1970s New York to the Latin American jungles. As he follows this trail, the curator discovers a cast of characters whose own fixations interrogate the unstable frontiers between art, science, politics, and religion. An aging photographer living nearly alone in an abandoned mining town where subterranean fires rage without end creates miniature replicas of ruined cities. A former model turned conceptual artist becomes the star defendant in a trial over the very soul and purpose of art. A young indigenous boy receives a vision of the end of the world. Reality is a curtain the curator realizes, and to draw it back is to reveal the theater of the obsessed. *Natural History* is a portrait of a world trapped between faith and irony, tragedy and farce. An urgent and impressively ambitious novel in the tradition of Italo Calvino and Ricardo Piglia, it confirms Carlos Fonseca as one of the most daring writers of his generation. **G.K. Retold Stories, Untold Histories Joanna Ziarkowska, 2014-07-18

Retold Stories, Untold Histories concentrates on how challenging questions concerning the nature of historical representation, the formation of national ethnic identities, and creative agendas are addressed in the diverse and inspiring writings of Maxine Hong Kingston and Leslie Marmon Silko. The rationale behind juxtaposing two writers coming from diverse cultural contexts originates in the fact that both Kingston and Silko share the experience of historical and cultural marginalization and more importantly devise similar methods of rendering it in creative writing. Writing from the perspective of two distinct marginalized groups, Kingston and Silko share the view that the official version of national history may be seen as a narrative of misrepresentation and the exclusion of people who either greatly contributed to the building of the country or occupied the territory of the present United States long before its creation. In their texts, both writers engage in a polemic against a history that, using its legitimizing power as a scientific discipline, produces and perpetuates stereotypical images of Chinese and Native Americans and more importantly eliminates the two groups from the process of constructing the national narratives of origins that monitor and control the borders of what constitutes American identity. Despite apparent differences in cultural and historical contexts, Kingston and Silko share an enthusiasm for employing unconventional tools and sources.

Mahler, 2024-01-01 The nation state is seen by many today as the key unit of analysis for international organization and cooperation in the modern age but not all groups that want to make up and control their own nation state are able to do so historical factors domestic politics and international relations often prevent them from obtaining sovereign power Groups that have tried to create a nation state and failed to do so can be referred to as being frustrated Frustrated Nationalism offers case studies by an international collection of scholars who describe the efforts of many of those groups to achieve sovereign status or at least to obtain greater control over the policies that affect them their strategies and their outcomes **Journal of the West** Lorrin L.
