Title: War Neurosis and the Great War

Historical Question: Why did the Great War fuel the study of psychological trauma and illness? ([Read below how to develop a good historical question.](#)) (This part is optional now, but have a thesis question by your first draft.)

Prior to the Great War, the desire to study war neurosis was nearly nonexistent. However, World War I brought the demand to understand soldiers' reactions to the destruction they witnessed. Why did the Great War fuel the study of psychological trauma and neurosis? To answer this question, one must understand the development of war trauma research. Doctors had primitive views of trauma. Most educated psychoanalysts attributed trauma to women. They felt that women were genetically prone to cases of hysteria. If men had shown signs of psychological illnesses, doctors assumed the men were feminine or weak. Therefore, society put a stigma on anyone deemed psychologically unfit. Since men were naturally tough, doctors also assumed that men should not show signs of weakness during or after a war. Yet, most doctors began to move away from this assumption after studying soldiers from the Russo-Japanese war. The Great War made military officials, politicians, and doctors realize that the brutality of war caused men to psychologically deteriorate. Soldiers had always to think about their survival, so this made them prone to constant stress and anxiety. In addition, soldiers faced new weaponry like tanks, poisonous gases, and more powerful and accurate artillery. Finally, the interest in war neurosis peaked when soldiers returned to society. Doctors were stunned by the emotionless men they analyzed. Only after many years, soldiers began to open up and relate their experiences of the war. Therefore, the study of war trauma evolved during the Great War because of the curiosity of doctors, the attempt to understand the new form of violence the war brought, and the fascination with the soldiers after their return to society.

The study of war neurosis is important because the knowledge is useful in understanding the experience soldiers went through on the battlefield. Upon returning home, soldiers had feelings of guilt, remorse, fear, hysteria, and hopelessness. World War I marked the transition of society moving away from glorifying war to a feeling of uncertainty and apprehension. Although general accounts from World War I outlined the hardships of war, observance of psychological conditions educated societies about the dangers of violence. Also, the literature at this time gave individuals the opportunity to read about the horrors the young men endured. Even today, studying literature or personal accounts from armed conflicts comes from the Great War. The most well known accounts of psychological suffering among soldiers are the accounts of Vietnam. The early work of doctors on the Great War helped the study of traumatic stress in Vietnam. Knowledge about war neurosis was limited prior to World War I, but perhaps society will understand future soldiers because of the pioneer work done during the Great War. Finally, war neurosis helps psychologists understand human emotions. By examining an individual during

atomic spectra lab report chem 1001 atomic spectra - Jul 19 2023

web the line spectrum which refers to the observed light through a spectrometer that display a series of discrete lines of color is called the atomic emission spectrum elements have a unique spectrum and in this lab we observe four types of gases and their separate spectrums which vary in number of lines and color

atomic emission spectroscopy short lab report - Apr 04 2022

web we give atomic emission spectroscopy short lab report and numerous ebook collections from fictions to scientific

research in any way accompanied by them is this atomic emission spectroscopy short lab report that can be your partner water resources investigations report 1999 progress in analytical atomic spectroscopy c

1 4 introduction to atomic absorption spectroscopy - Dec 12 2022

web both atomic emission and atomic absorption spectroscopy can be used to analyze samples atomic emission spectroscopy measures the intensity of light emitted by the excited atoms while atomic absorption spectroscopy measures the light absorbed by atomic absorption

atomic emission spectroscopy an overview sciencedirect - Sep 09 2022

web 6 2 3 atomic emission spectrometry aes in aes also called optical emission spectrometry oes the radiation is generated by sparks arcs flames or plasmas producing numerous transitions the spectra thus generated are particularly for heavier elements very complex and a number of lines depend on the excitation temperature

lab 14 emission spectroscopy introduction - Mar 15 2023

web the atoms present for example by studying emission spectra of the stars we can determine their chemical composition also emission spectra are used to identify poisons in food pesticides in the environment and numerous substances in forensic samples although emission spectroscopy has many practical uses it is equally interesting

atomic emission spectra lab report studocu - Oct 22 2023

web atomic emission spectra lab report the objective of this week s lab the atomic emission spectra lab was to determine the chemical composition of an unknown substance based off its emitted color when placed in a flame

atomic emission spectroscopy wikipedia - Oct 10 2022

web atomic emission spectroscopy aes is a method of chemical analysis that uses the intensity of light emitted from a flame plasma arc or spark at a particular wavelength to determine the quantity of an element in a sample
