Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduate researchers and academics specializing in Soviet history, contemporary Russian politics and society and history education and textbooks. **Oswaal**

The Return of History Jennifer Welsh, 2016-09-17 In the 2016 CBC Massey Lectures, former Special Advisor to the UN Secretary General and international relations specialist Jennifer Welsh delivers a timely, intelligent and fascinating analysis of twenty-first century geopolitics. In 1989, as the Berlin Wall crumbled and the Cold War dissipated, the American political commentator Francis Fukuyama wrote a famous essay entitled 'The End of History' which argued that the demise of confrontation between Communism and capitalism and the expansion of Western liberal democracy signalled the endpoint of humanity's sociocultural and political evolution and the path toward a more peaceful world. But a quarter of a century after Fukuyama's bold prediction, history has returned: arbitrary executions, attempts to annihilate ethnic and religious minorities, the starvation of besieged populations, invasion and annexation of territory and the mass movement of refugees and displaced persons. It has also witnessed cracks and cleavages within Western liberal democracies as a result of deepening economic inequality. 'The Return of History' argues that our own liberal democratic society was not inevitable but that we must all, as individual citizens, take a more active role in its preservation and growth.
