*Knowledge, Curriculum and Equity* Brian Barrett, Ursula Hoadley, John Morgan, 2017-07-20 In 2008 the first in a series of symposia established a social realist case for knowledge as an alternative to the relativist tendencies of the constructivist post structuralist and postmodernist approaches dominant in the sociology of education The second symposium focused on curriculum and the development of a theoretical language grounded in social realism to talk about issues of knowledge and curriculum Finally the third symposium brought together researchers in a broad range of contexts to build on these ideas and arguments and with a concerted empirical focus bring these social realist ideas and arguments into conversation with data *Knowledge Curriculum and Equity Social Realist Perspectives* contains the work of the third symposium where the strengths and gaps in the social realist approach are identified and where there is critical recognition of the need to incrementally extend the theories through empirical study Fundamentally the problem that social realism is seeking to address is about understanding the social conditions of knowledge production and exchange as well as its structuring in the curriculum and in pedagogy The central concern is with the on going social reproduction of inequality through schooling and exploring whether and how foregrounding specialised knowledge and its access holds the possibility for interrupting it This book consists of 13 chapters by different authors working in Oceania Asia Europe Africa and North America From very different vantage points the authors focus their theoretical and empirical sights on the assumptions about knowledge that

underpin educational processes and the pursuit of more equitable schooling for all      **Breaking Point** Rebecca Schwartz Greene, 2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author's personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt's endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2.5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening's validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected      *How We Teach Science* John L.

Rudolph, 2019-06-01 Despite an enduring belief that science should be taught there has been no enduring consensus about how or why This is especially true when it comes to teaching scientific process John Rudolph shows that how we think about and teach science will either sustain or thwart future innovation and determine how science is perceived by the public

**Capitalism on Campus** Ron Roberts,2018-11-30 Capitalism on Campus examines the university s journey into market hands and the sexual sell off of students which has come with it It raises critical questions about the forces which conjoin higher education to both sex work and declining academic freedom In so doing it questions the role our institutions of learning have in the cultivation of resistance to capitalism This is a call to rediscover the emancipatory potential of knowledge

**New England Federalists** Dinah Mayo-Bobee,2017-01-31 Beginning with controversies related to British and French attacks on U S neutral trade in 1805 this book looks at crucial developments in national politics public policy and foreign relations from the perspective of New England Federalists Through its focus on the partisan climate in Congress that appeared to influence federal statutes New England Federalists Widening the Sectional Divide in Jeffersonian America sets out to explain in their own words why Federalists especially those often deemed extreme or radical by contemporaries and

historians alike escalated a campaign to repeal the Constitution's three fifths clause which included slaves in the calculation for congressional representation and votes in the Electoral College while encouraging violations of federal law and advocating northern secession from the Union Unlike traditional interpretations of early nineteenth century politics that focus on Jeffersonian political economy this study brings the impetus for Federalist obstructionism and sectionalism into sharp relief Federalists who became the sole defenders of New England's economic independence and free labor force later issued calls for northerners to unite against the spread of slavery and southern control of the central government Along with controversies that placed sectional harmony in jeopardy this work links themes in Federalist opposition rhetoric to the important antislavery arguments that would flourish in antebellum culture and politics

**Law Mart** Riaz Tejani,2017-07-18 American law schools are in deep crisis Enrollment is down student loan debt is up and the profession's supply of high paying jobs is shrinking Meanwhile thousands of graduates remain underemployed while the legal needs of low income communities go substantially unmet Many blame overregulation and seek a free market to solve the problem but this has already been tested Seizing on a

deregulatory policy shift at the American Bar Association private equity financiers established the first for profit law schools in the early 2000s with the stated mission to increase access to justice by serving the underserved Pursuing this mission at a feverish rate of growth they offered the promise of professional upward mobility through high tech simplified teaching and learning In Law Mart a vivid ethnography of one such environment Riaz Tejani argues that the rise of for profit law schools shows the limits of a market based solution to American access to justice Building on theories in law political economy and moral anthropology Tejani reveals how for profit law schools marketed themselves directly to ethnoracial and socioeconomic minority communities relaxed admission standards increased diversity shook up established curricula and saw student success rates plummet They contributed to a dramatic rise in U S law student debt burdens while charging premium tuition financed up front through federal loans over time If economic theories have so influenced legal scholarship what happens when they come to shape law school transactions governance and oversight For students promised professional citizenship by these institutions is there a need for protections that better uphold institutional quality and sustainability Offering an unprecedented glimpse of this landscape Law Mart is a colorful foray into these essential questions

**Debating Modern Medical Technologies** Karen J. Maschke, Michael K. Gusmano, 2018-09-14 This book analyzes policy fights about what counts as good evidence of safety and effectiveness when it comes to new health care technologies in the United States and what political decisions mean for patients and doctors Medical technologies often promise to extend and improve quality of life but come with many questions Are they safe and effective Are they worth the cost When should they be allowed on the market and when should Medicare Medicaid and private insurance companies be required to pay for drugs devices and diagnostic tests Using case studies of disputes about the value of mammography screening genetic testing for disease risk brain imaging technologies to detect biomarkers associated with Alzheimer's disease cell based therapies and new expensive drugs Maschke and Gusmano illustrate how scientific disagreements about what counts as good evidence of safety and effectiveness are often swept up in partisan fights over health care reform and battles among insurance and health care companies physicians and patient advocates Debating Modern Medical Technologies The Politics of Safety Effectiveness and Patient Access reveals stakeholders differing values and interests regarding patient choice physician autonomy risk assessment government intervention in medicine and technology assessment and scientific innovation as a driver of national and global economies It will help readers to understand the nature and complexity of past and current policy disagreements and their effects on patients

**Resources in Education**, 1988 *Constitutional Foundings in Southeast Asia* Kevin YL Tan, Ngoc Son Bui, 2019-05-30 This volume focuses on the making nature and role of the first modern constitutions at the founding of the modern nation states in Southeast Asia These historical essays add richly to our understanding and appreciation of the founding moments and to the theory and practice of constitutionalism in these states This volume makes three significant contributions First it helps plug the wide knowledge gap in comparative constitutional history in Southeast

Asia Second it furthers our understanding of contemporary constitutional practice and also anticipates possible developmental trajectories in light of the foundational values embedded in and manifested through these constitutions Third through the comparative historical study of these early constitutions plausible theoretical insights may be gained to further our understanding of Southeast Asia s constitutional history The book is essential reading for those wishing to obtain a deeper understanding of the constitutional foundations of Southeast Asia
