Burnt by Democracy Jacqueline Kennelly, 2023-11-30 *Burnt by Democracy* traces the political ascendance of neoliberalism and its effects on youth The book explores democracy and citizenship as described in interviews with over forty young people ages 16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties Rather it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality *Burnt by Democracy* makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all

Ethnic Cleansing During the Cold War Tomasz Kamusella, 2018-07-17 In mid 1989 the Bulgarian communist regime seeking to prop up its legitimacy played the ethnonational card by expelling 360 000 Turks and Muslims across the Iron Curtain to neighboring Turkey It was the single largest ethnic cleansing during the Cold War in Europe after the wrapping up of the postwar expulsions population transfers of ethnic Germans from Central Europe in the latter half of the 1940s Furthermore this expulsion of Turks and Muslims from Bulgaria was the sole unilateral act of ethnic cleansing that breached the Iron Curtain The 1989 ethnic cleansing was followed by an unprecedented return of almost half of the expellees after the collapse of the Bulgarian communist regime The return which partially reversed the effects of this ethnic cleansing was the first ever of its kind in history Despite the unprecedented character of this 1989 expulsion and the subsequent return not a single research article let alone a monograph has been devoted to these momentous developments yet However the tragic events shape today's Bulgaria while the persisting attempts to suppress the remembrance of the 1989 expulsion continue sharply dividing the country's inhabitants Without remembering about this ethnic cleansing it is impossible to

explain the fall of the communist system in Bulgaria and the origins of ethnic cleansing during the Yugoslav wars. Falters Yugoslavia's future ethnic cleansers took a good note that neither Moscow nor Washington intervened in neighboring Bulgaria to stop the 1989 expulsion which in light of international law was then still the legal instrument of population transfer. The as yet unhealed wound of the 1989 ethnic cleansing negatively affects the Bulgaria's relations with Turkey and the European Union. It seems that the only way out of this debilitating conundrum is establishing a truth and reconciliation commission that at long last would ensure transitional justice for all Bulgarians irrespective of language, religion or ethnicity.

Globalisation, Ideology and Politics of Education Reforms Joseph Zajda, 2015-10-09. This 14th volume in the 24 volume book series sets out to explore the interrelationship between ideology, the state and education reforms, placing it in a global context. It examines some of the major education reforms and policy issues in a global culture, particularly in the light of recent shifts in accountability, quality and standards driven education and policy research. By doing so, it provides a comprehensive picture of the intersecting and diverse discourses of globalisation and policy driven reforms in education. The book draws upon recent studies in the areas of globalisation, equality and the role of the state. It explores conceptual frameworks and methodological approaches applicable in the research covering the state, globalisation and education reforms. It critiques the neo-liberal ideological imperatives of current education and policy reforms and illustrates the way that shifts in the relationship between the state and education policy affect current trends in education reforms and schooling globally. Individual chapters critically assess the dominant discourses and debates on education and policy reforms. Using diverse comparative education paradigms from critical theory to historical comparative research, the chapters focus on globalisation, ideology and democracy and examine both the reasons and outcomes of education reforms and policy change. They provide an informed critique of models of accountability, quality and standards driven education reforms that are informed by Western dominant ideologies and social values. The book also draws upon recent studies in the areas of equity, cultural capital and dominant ideologies in education.

lawyer or legal scholar might recognize Fortier looks in detail at the legal issues most prominent across Shakespeare's work status inheritance fraud property contract tort especially slander evidence crime political authority trials and the relative value of law and justice He also includes two detailed case studies of *The Merchant of Venice* and *Measure for Measure* as well as a chapter looking at law in works by Shakespeare's contemporaries The book concludes with a chapter on the law as it relates to Shakespeare today The book shows that the legal issues in Shakespeare are often relevant to issues we face now and the exploration of law in Shakespeare is as germane today though in sometimes new ways as in the past
