*Ukraine Over the Edge* Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine's divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev's Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass

*Treading the waters of history* Kondlo, Kwandiwe, Saunders, Chris, 2014-12-10 This volume is an anthology of thought pieces about the ANC contributed by a variety of scholars and thinkers It gives voice to a variety of perspectives on the subject The fact that some authors disagree with each other is all part of what will we hope be an on going debate The book originated from a series of public dialogues that began before the centenary year and continued afterwards being held at the University of Free State The first section covers reflections on how knowledge of the history of the ANC has advanced and the position of that history in the general history of the liberation struggle This section aids a critical appraisal of the state of primary sources used in writing the history of the ANC Chapters in the second half of the book consider some of the various contexts in which the ANC has operated and continues to operate These include the evolution of the ANC's economic policy and how it has changed over time the kind of leadership the organisation provided in redefining gender relations and most importantly the ANC and international relations especially seen from the vantage point of progressive internationalism The last section examines the evolution of Pan Africanism in the ANC's ideological development

**Generalized Descriptive Set Theory and Classification Theory** Sy-David Friedman, Tapani Hyttinen, Vadim Kulikov, 2014-06-05 Descriptive set theory is mainly concerned with studying subsets of the space of all countable binary sequences In this paper the authors study the generalization where countable is replaced by uncountable They explore properties of generalized Baire and Cantor spaces equivalence relations and their Borel reducibility The study shows that the descriptive set theory looks very different in this generalized setting compared to the classical countable case They also draw the connection between the stability theoretic complexity of first order theories and the descriptive set theoretic complexity of their isomorphism relations The authors results suggest that Borel reducibility on

uncountable structures is a model theoretically natural way to compare the complexity of isomorphism relations [Book Review Index - 2009 Cumulation](#) Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **The Great Barrier Reef** Ben Daley,2014-07-17 The Great Barrier Reef is located along the coast of Queensland in north east Australia and is the world s largest coral reef ecosystem Designated a World Heritage Area it has been subject to increasing pressures from tourism fishing pollution and climate change and is now protected as a marine park This book provides an original account of the environmental history of the Great Barrier Reef based on extensive archival and oral history research It documents and explains the main human impacts on the Great Barrier Reef since European settlement in the region focusing particularly on the century from 1860 to 1960 which has not previously been fully documented yet which was a period of unprecedented exploitation of the ecosystem and its resources The book describes the main changes in coral reefs islands and marine wildlife that resulted from those impacts In more recent decades human impacts on the Great Barrier Reef have spread accelerated and intensified with implications for current management and conservation practices There is now better scientific understanding of the threats faced by the ecosystem Yet these modern challenges occur against a background of historical levels of exploitation that is little known and that has reduced the ecosystem s resilience The author provides a compelling narrative of how one of the world s most iconic and vulnerable ecosystems has been exploited and degraded but also how some early conservation practices emerged
