If we focus on parents' perspective, assessment is something good because it facilitates them the fact of knowing that their children are working at school and if they are truly learning or not. Now, I will focus on teachers' perspective. For teachers assessment is something great because it gives information about students and their progress in the learning process, about our own job (because we are assessed by others teachers of self-assessment) and information about the quality of the tools we use in our classes.

❖ Formative & Summative Assessment:

I would like to mention that, before studying this unit it was difficult for me to understand the difference between formative and summative assessment. However, now, I am able to distinguish them and that's why I would like to refers on these terms in the following lines. After each explanation, I will give you some examples of how I use each of the assessments with my students.

- **Formative assessment** provides explicit feedback to both, teacher and students, in order to improve the teaching-learning process, it means, the
