Husserl S Transcendental Phenomenology Nature Spirit And Life

Magnus Englander, Susi Ferrarello

Husserl S Transcendental Phenomenology Nature Spirit And Life:

Husserl's Transcendental Phenomenology Andrea Staiti,2014-11-06 This book is the first study of Husserl that connects his phenomenology to the underappreciated work of Neo Kantians and life philosophers **Husserl's**

Transcendental Phenomenology Andrea Sebastiano Staiti,2014 This book is the first study of Husserl that connects his phenomenology to the underappreciated work of neo Kantians and life philosophers Husserl, Kant and Transcendental

Phenomenology Iulian Apostolescu,Claudia Serban,2020-08-10 The transcendental turn of Husserl s phenomenology has challenged philosophers and scholars from the beginning This volume inquires into the profound meaning of this turn by contrasting its Kantian and its phenomenological versions Examining controversies surrounding subjectivity idealism aesthetics logic the foundation of sciences and practical philosophy the chapters provide a helpful guide for facing current debates **Historical Dictionary of Husserl's Philosophy** John J. Drummond,2022-03-14 Edmund Husserl is generally

regarded as the founding figure of the philosophical movement of phenomenology by which he understands a descriptive science of the essential structures of experiences and of their objects precisely as these are experienced Phenomenology has had a decisive influence on philosophy in the 20th century especially in Europe The movement known as continental philosophy whether practiced in Europe or elsewhere has its roots in phenomenology and in the post Hegelian philosophies of S ren Kierkegaard Friedrich Nietzsche and Karl Marx Historical Dictionary of Husserl s Philosophy Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on his key concepts and major writings as well as entries on his most important predecessors contemporaries and successors This book is an excellent resource for students researchers and anyone wanting to know more about Edmund Husserl **Somatic Desire** Christine Rojcewicz,Richard Kearney,Sarah Horton,Stephen

Mendelsohn,2019-01-17 The essays in this volume all ask what it means for human beings to be embodied as desiring creatures and perhaps still more piercingly what it means for a philosopher to be embodied In taking up this challenge via phenomenology psychoanalysis hermeneutics and the philosophy of literature the volume questions the orthodoxies not only of Western metaphysics but even of the phenomenological tradition itself We miss much that has philosophical import when we exclude the somatic aspects of human life and it is therefore the philosopher s duty now to rediscover the meaning inherent in desire emotion and passion without letting the biases of any tradition determine in advance the meaning that reveals itself in embodied desire Continental philosophers have already done much to challenge binary oppositions and this volume sets out a new challenge we must now also question the dichotomy between being at home and being alienated Alterity is not simply something out there separate from myself rather it penetrates me through and through even in my corporeal experience My body is both my own and other I am other than myself and therefore other than my body Additionally this book is a conversation not a presentation of a new orthodoxy Thus the hope is that these essays will open

the way for further dialogue that will continue to radically rethink our understanding of embodied desire Gathered together here are twelve essays that address these issues from deeply interrelated albeit unique perspectives from within the field

The Oxford Handbook of the History of Phenomenology Dan Zahavi, 2018-06-04 This Oxford Handbook offers a broad critical survey of the development of phenomenology one of the main streams of philosophy since the nineteenth century It comprises thirty seven specially written chapters by leading figures in the field which highlight historical influences connections and developments and offer a better comprehension and assessment of the continuity as well as diversity of the phenomenological tradition The handbook is divided into three distinct parts The first part addresses the way phenomenology has been influenced by earlier periods or figures in the history of philosophy The second part contains chapters targeting prominent phenomenologists How was their work affected by earlier figures how did their own views change over time and what kind of influence did they exert on subsequent thinkers The contributions in the third part trace various core topics such as subjectivity intersubjectivity embodiment spatiality imagination etc in the work of different phenomenologists in order to explore how the notions were transformed enriched and expanded up through the century This volume will be a source of insight for philosophers students of philosophy and for people working in other disciplines of the humanities social sciences and sciences who are interested in the phenomenological tradition It is an authoritative guide to how phenomenology started how it developed and where it is heading

Walter Benjamin and the Critique of Political Economy Duy Lap Nguyen, 2022-07-14 Exploring the connections between Walter Benjamin s philosophy of history and a Marxian Critique of Political Economy Duy Lap Nguyen analyses Benjamin s early writings and their development into a distinct understanding of historical materialism Benjamin s historically materialist conception of history is shown to be characterised by a focus on the religion of capitalism the mythology of the state and messianic time Revealing these factors Nguyen joins up Benjamin s philosophical critique of the Kantian conception of history alongside the historical trajectory of capitalism he subscribed to Influenced by the theory of fascism outlined by German Marxist theorist Karl Korsch we see how Benjamin s own theory of revolution and redemption in capitalist society developed into a sophisticated critique Essential to Benjamin s materialist critique was a recognition of the fallibility of the Enlightenment notion of progress as well as the need to overturn the political and economic catastrophes which enable capitalism and fascism to thrive In mapping the exact course of Benjamin s critical historical materialism Nguyen fully explicates the unique contribution he made to western Marxism

Contemporary Phenomenologies of Normativity Sara Heinämaa, Mirja Hartimo, Ilpo Hirvonen, 2022-03-30 This volume investigates forms of normativity through the phenomenological methods of description analysis and interpretation It takes a broad approach to norms covering not only rules and commands but also goals values and passive drives and tendencies Part I Basic Perspectives begins with an overview of the phenomena of normativity and then clarifies the constitution of norms by Husserlian and Heideggerian concepts It offers phenomenological alternatives to the neo

Kantian and neo Hegelian approaches that dominate contemporary debates on the sources of normativity Part II From Perception to Imagination turns to the normativity of three basic types of experiences This part first sheds light on the normativity of perception and then illuminates the kind of normativity characteristic of imagination and drive intentionality Part III Social Dimensions analyzes the norms that regulate the formation of practical communities It takes a broad view of practical norms discussing social and moral norms as well as the epistemic norms of scientific practices By clarifying the divergences and interrelations between various types and levels of norms the volume demonstrates that normativity is not one phenomenon but a complex set of various phenomena with multiple sources Contemporary Phenomenologies of Normativity Norms Goals and Values will be of interest to researchers and advanced students working on issues of normativity in phenomenology epistemology ethics and social philosophy

The New Yearbook for Phenomenology and Phenomenological Philosophy Timothy Burns, Thomas Szanto, Alessandro Salice, Maxime Doyon, Augustin Dumont, 2019-03-18 Volume XVII Part 1 Phenomenology Idealism and Intersubjectivity A Festschrift in Celebration of Dermot Moran's Sixty Fifth Birthday Part 2 The Imagination Kant's Phenomenological Legacy Aim and Scope The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau Ponty and Gadamer Contributors Andreea Smaranda Aldea Lilian Alweiss Timothy Burns Steven Crowell Maxime Doyon Augustin Dumont Richard Kearney Mette Lebech Samantha Matherne Timothy Mooney Thomas Nenon Matthew Ratcliffe Alessandro Salice Daniele De Santis Andrea Staiti Anthony J Steinbock Michela Summa Thomas Szanto Emiliano Trizio and Nicolas de Warren Submissions Manuscripts prepared for blind review should be submitted to the Editors burt.crowell@hopkins.univ.lille3.fr and drummond.fordham@ed.ac.uk electronically via e-mail attachments

The Husserlian Mind Hanne Jacobs, 2021-07-20 Edmund Husserl 1859-1938 is widely regarded as the principal founder of phenomenology one of the most important movements in twentieth century philosophy His work inspired subsequent figures such as Martin Heidegger his most renowned pupil as well as Jean Paul Sartre and Maurice Merleau Ponty all of whom engaged with and developed his insights in significant ways His work on fundamental problems such as intentionality consciousness and subjectivity continues to animate philosophical research and argument The Husserlian Mind is an outstanding reference source to the full range of Husserl's philosophy Forty chapters by a team of international contributors are divided into seven clear parts covering the following areas major works phenomenological method phenomenology of consciousness epistemology ethics and social and political philosophy philosophy of science metaphysics Contained in these sections are chapters on many of the key aspects of Husserl's thought including intentionality transcendental philosophy reduction perception time self and subjectivity personhood logic psychology ontology and idealism Offering an unparalleled guide to the enormous range of his thought The Husserlian Mind is essential reading for students and scholars of Husserl

phenomenology and the history of twentieth century philosophy It will also be of interest to those in related fields in the humanities social sciences and psychology and the cognitive sciences

The Existential Husserl Marco Cavallaro, George Heffernan, 2022-10-25 This book examines Husserl's approach to the question concerning meaning in life and demonstrates that his philosophy includes a phenomenology of existence Given his critique of the fashionable philosophy of existence of the late 1920s and early 1930s one might think that Husserl posited an opposition between transcendental phenomenology and existential philosophy as well as that in this respect he differed from existential phenomenologists after him But texts composed between 1908 and 1937 and recently published in *Husserliana XLII Grenzprobleme der Ph nomenologie* 2014 show that the existential Husserl was not opposed but open to the phenomenological investigation of several basic topics of a philosophy of existence A collection of contributions from a team of internationally recognized scholars drawing on these and other sources the present volume offers insights into the relationship between phenomenology and philosophy of existence It does so by 1 delineating the basic outlines of Husserl's phenomenology of existence 2 reinterpreting the tension between Husserl's transcendental phenomenology and Jaspers's and Heidegger's philosophy of existence as well as Kierkegaard's and Sartre's existentialism and 3 investigating the existential aspects of Husserl's phenomenological ethics Thus focusing on neglected aspects of Husserl's thought the volume shows that there is a consensus between classical phenomenology and existential phenomenology on the urgency of addressing the existential questions that in *The Crisis of the European Sciences and Transcendental Phenomenology* 1936 Husserl calls the questions concerning the meaning or meaninglessness of this entire human existence *The Existential Husserl* represents a major contribution to the clarification of the historical and philosophical developments from transcendental phenomenology to existential phenomenology The book should appeal to a wide audience of many readers at all levels looking for phenomenological answers to existential questions

Phenomenology in a New Key: Between Analysis and History Jeffrey Bloechl, Nicolas de Warren, 2015-01-19 In this collection of essays the sophistication and vibrancy of contemporary phenomenological research is documented including both its engagement with key figures in the history of philosophy and with critical problems defining future directions of philosophical investigations It honors the writings of Richard Cobb Stevens whose work in phenomenological philosophy analytic philosophy and the history of philosophy has served as model for generations of philosophers working between these three fields of research The essays collected in this volume provide a unique window on the contemporary state of the art in phenomenological philosophy by leading scholars of international reputation from North America and Europe Historical figures such as Aristotle and Hobbes are innovatively brought into dialogue with phenomenological thinking Phenomenological thinking is brought to bear on a wide variety of problems from the nature of artworks and photography to questions concerning consciousness and knowledge Among the topics discussed in these specially commissioned essays phenomenology and Aristotle the nature of the primal ego Hobbes and Husserl intentionality and reference Neo Aristotelian

ethics Husserl and Wittgenstein photography the nature of artworks *Hermeneutics and Phenomenology* Saulius Geniusas, Paul Fairfield, 2018-09-20 The relationship between these two central theoretical and philosophical approaches which we thought we knew is more complex and interesting than our standard story might suggest It is not always clear how hermeneutics that is post Heideggerian hermeneutics as articulated by Hans Georg Gadamer Paul Ricoeur and a large number of thinkers working under their influence regards the phenomenological tradition be it in its Husserlian or various post Husserlian formulations This volume inquires into this issue both in general conceptual terms and through specific analyses into questions of ontology and metaphysics science language theology and imagination With a substantial editors introduction the volume contains 15 chapters from some of the most significant scholars in this field covering the essential questions about the history present and future of these two disciplines The volume will be of interest to any philosopher or student with an interest in developing a sophisticated and nuanced understanding of contemporary hermeneutics and phenomenology **Empathy, Embodiment, and the Person** James Jardine, 2022-02-11 This text explores how self consciousness and self understanding differ phenomenologically from the experience and comprehension of others and the extent to which such relations are constitutively interdependent Jardine argues that Husserl s analyses of selfhood and intersubjectivity are animated by the question of what s at stake in recognising an agent s engagement as the situated response of a person rather than simply as the comportment of an animal or living body Drawing centrally from the freshly excavated Ideas II drafts and manuscripts the author develops Husserl s often fragmentary investigations of attention habit emotion freedom the common world and action and considers their implications for subjectivity and the experience of others **Empathy Embodiment and the Person** also brings Husserlian phenomenology into dialogue with twenty first century philosophical concerns from accounts of selfhood and agency from analytic philosophy to the treatment of social experience in critical theory The book shows the reader that transcendental phenomenology can be rejuvenated by engaging with a broader philosophical landscape and will appeal to researchers students and instructors in the field **New Approaches to Neo-Kantianism** Nicolas de Warren, Andrea Staiti, 2015-06-11 After the demise of German Idealism Neo Kantianism flourished as the defining philosophical movement of Continental Europe from the 1860s until the Weimar Republic This collection of new essays by distinguished scholars offers a fresh examination of the many and enduring contributions that Neo Kantianism has made to a diverse range of philosophical subjects The essays discuss classical figures and themes including the Marburg and Southwestern Schools Cohen Cassirer Rickert and Natorp s psychology In addition they examine lesser known topics including the Neo Kantian influence on theory of law Husserlian phenomenology Simmel s study of Rembrandt Cassirer s philosophy of science Cohen s philosophy of religion in relation to Rawls and Habermas and Rickert s theory of number This rich exploration of a major philosophical movement will interest scholars and upper level students of Kant twentieth century philosophy continental philosophy sociology and psychology *Empathy and Ethics* Magnus

Englander, Susi Ferrarello, 2023-05-05 This book represents a unique indispensable reflection on the interconnection between empathy and ethics To what extent is it right to be empathetic Can empathy be unethical Or is there an ethical obligation to be empathetic Do we educate our citizens and train our professionals to use the right form of empathy Phenomenological ethics is a relatively new approach to ethics whose emphasis is put on the description of the lived experience and the ethical phenomenon The essays offer phenomenological descriptions of the thorny problem pertaining to the interconnection of empathy and ethics essential for professionals and scholars of different fields such as philosophy psychiatry health science psychology and sociology Contributors Michael Agostinelli Jr Elodie Boubilil Francesca Brencio Manuel Camassa Scott D Churchill Nicolas de Warren Craig Derksen John J Drummond ngrid Vendrell Ferran Jannik M Hansen Simon H ffding Joel Krueger Carlos Lobo Esteban Mar n vila Alexander Montes Dermot Moran Henning N renberg Tone Roald Eva Schwarz Andrea Staiti Joona Taipale Stefano Vincini Maren Wehrle Dan Zahavi **The Routledge Handbook of Liberal**

Naturalism Mario De Caro, David Macarthur, 2022-03-14 The central question of naturalism the relation of philosophy to science was one of the defining strands of twentieth century thought and remains a major source of debate and controversy Today many argue that philosophy should fold itself into the sciences especially the natural sciences Liberal naturalists argue that such scientific naturalism demands reductive and Procrustean conceptions of knowledge and reality Moreover many philosophical problems are beyond the scope of the sciences such as the nature of persons the normativity of the space of reasons and how best to understand the peculiar mix of objectivity and subjectivity of ethics and art The Routledge Handbook of Liberal Naturalism is the first collection to present a comprehensive overview of liberal naturalism a philosophical outlook that lies between scientific naturalism and supernaturalism Comprising 37 chapters by an international team of contributors it examines important cutting edge topics including what is liberal naturalism is metaphysics a viable project naturalism in the history of philosophy including Hume Dewey and Quine contemporary liberal naturalists such as P F Strawson John McDowell Hilary Putnam and John Rawls related kinds of naturalism including subject naturalism common sense naturalism and biological naturalism the bearing of liberal naturalism on contemporary debates in epistemology philosophy of mind ethics and aesthetics Essential reading for students and researchers in all areas of philosophy this volume will be of particular interest for those studying philosophical naturalism philosophy of science metaphysics epistemology philosophy of mind ethics and aesthetics Rediscovering Léon Brunschvicg's Critical Idealism Pietro Terzi, 2022-01-13 L on Brunschvicg

s contribution to philosophical thought in fin de si cle France receives full explication in the first English language study on his work Arguing that Brunschvicg is crucial to understanding the philosophical schools which took root in 20th century France Pietro Terzi locates Brunschvicg alongside his contemporary Henri Bergson as well as the range of thinkers he taught and influenced including L vinas Merleau Ponty de Beauvoir and Sartre Brunschvicg s deep engagement with debates concerning spiritualism and rationalism neo Kantian philosophy and the role of mathematics in philosophy made him the

perfect supervisor for a whole host of nascent philosophical ideas which were forming in the work of his students Terzi outlines Brunchvicg s defence of neo Kantian judgement historical analysis and the inextricability of the natural and humanist sciences to any rigorous system of philosophy with wide ranging implications for contemporary scholarship

A Companion to Nineteenth-Century Philosophy John Shand, 2019-04-16 Investigate the challenging and nuanced philosophy of the long nineteenth century from Kant to Bergson Philosophy in the nineteenth century was characterized by new ways of thinking a desperate searching for new truths As science art and religion were transformed by social pressures and changing worldviews old certainties fell away leaving many with a terrifying sense of loss and a realization that our view of things needed to be profoundly rethought The Blackwell Companion to Nineteenth Century Philosophy covers the developments setbacks upsets and evolutions in the varied philosophy of the nineteenth century beginning with an examination of Kant s Transcendental Idealism instrumental in the fundamental philosophical shifts that marked the beginning of this new and radical age in the history of philosophy Guiding readers chronologically and thematically through the progression of nineteenth century thinking this guide emphasizes clear explanation and analysis of the core ideas of nineteenth century philosophy in an historically transitional period It covers the most important philosophers of the era including Hegel Fichte Schopenhauer Mill Kierkegaard Marx Nietzsche Bradley and philosophers whose work manifests the transition from the nineteenth century into the modern era such as Sidgwick Peirce Husserl Frege and Bergson The study of nineteenth century philosophy offers us insight into the origin and creation of the modern era In this volume readers will have access to a thorough and clear understanding of philosophy that shaped our world

Issues in Husserl's Ideas II Thomas Nenon, Lester Embree, 2013-03-14 This volume is chiefly composed of revised versions of essays presented and discussed at the research symposium of the same title held in Delray Beach Florida on May 7 9 1993 The symposium was conducted under the sponsorship of the William F Dietrich Eminent Scholar Chair in Philosophy at Florida Atlantic University and the Center for Advanced Research in Phenomenology Inc Several essays have been added including the Husserl ineditum and its translation The intention of the project was to attract even wider appreciation for this posthumous work by Husserl especially since it has now been first translated into English by Andre Schuwer and Richard Rojcewicz In manuscript form the Ideas II was known to Martin Heidegger and Maurice Merleau Ponty before Sein und Zeit 1927 and Phenomenologie de la perception 1945 as well to Edith Stein and Ludwig Landgrebe of course who worked on it as Husserl s assistants It was published in 1952 as Volume IV of the Husserliana series and critical studies of that volume were written by Paul Ricoeur and Alfred Schutz Now that there is an English translation it is increasingly being taught in the United States along with the Ideas I

If you ally habit such a referred **Husserl S Transcendental Phenomenology Nature Spirit And Life** book that will manage to pay for you worth, acquire the extremely best seller from us currently from several preferred authors.
