Peacock, Martine Batchelor, 2020-06-09 This book examines the importance of the topic of feeling tone *vedanā* as it appears in early Buddhist texts and practice and also within contemporary secular mindfulness based interventions The volume aims to highlight the crucial nature of the feeling tone or taste of experience in determining mental reactivity behaviour character and ethics In the history of Buddhism and in its reception in contemporary discourse *vedanā* has often been a much neglected topic with greater emphasis being accorded to other meditational focuses such as body and mind However feeling tone *vedanā* can be seen as a crucial pivotal point in understanding the cognitive process both in contemporary mindfulness and meditation practice within more traditional forms of Buddhism The taste of experience it is claimed comes as pleasant unpleasant and neither pleasant nor unpleasant and these tones or tastes inevitably follow from humans being embodied sensory beings That experience comes in this way is unavoidable but what follows can be seen in terms of reactivity or responsiveness This book was originally published as a special issue of Contemporary Buddhism Qualitative Research Methods Sarah J. Resignification of Borders: Eurasianism and the Russian World Nina Friess,Konstantin Kaminskij,2019-08-23 Eurasianism has proved to be an unexpectedly diverse and highly self reflexive concept By transforming the way we describe the Eurasian landmass it also resignifies our field of studies and its disciplinary boundaries In this process Eurasianism itself is subject to a constant resignification The present volume builds on this notion while pursuing an innovative approach to Eurasianism The authors advance the well established positions that view Eurasianism as a historical intellectual movement or as an ideology of Russian neo Imperialism and proceed to unpack an innovative vision of Eurasianism as a process of renegotiating cultural values and identity narratives in and beyond Russia

This procedural approach provides deeper insight into the operationality of the identity narratives and shifting semantics of Eurasianism in its relation to the Russian World
