**IT Security Compliance Management Design Guide with IBM Tivoli Security Information and Event Manager** Axel Buecker, Jose Amado, David Druker, Carsten Lorenz, Frank Muehlenbrock, Rudy Tan, IBM Redbooks, 2010-07-16. To comply with government and industry regulations such as Sarbanes Oxley, Gramm Leach Bliley (GLBA), and COBIT, which can be considered a best practices framework, organizations must constantly detect, validate, and report unauthorized changes and out-of-compliance actions within the Information Technology (IT) infrastructure. Using the IBM Tivoli Security Information and Event Manager solution, organizations can improve the security of their information systems by capturing comprehensive log data, correlating this data through sophisticated log interpretation and normalization, and communicating results through a dashboard and full set of audit and compliance reporting. In this IBM Redbooks publication, we discuss the business context of security audit and compliance software for

organizations and describe the logical and physical components of IBM Tivoli Security Information and Event Manager We also present a typical deployment within a business scenario This book is a valuable resource for security officers administrators and architects who want to understand and implement a centralized security audit and compliance solution
