Has the Luck Run Out? David Fagan,2019-02-26 Why are Australians anxious and pessimistic Who or what has caused our loss of trust in Australia Why has a feeling of powerlessness crept in for so many Has the luck really run out for the lucky country And what can we do to get it back Every generation believes its forebears have messed up the planet That s how we evolve But the mood in Australia at the moment for all ages seems one of gloom People are angry Distrustful And not just because we are losing Prime Ministers faster than we are losing wickets Sport business education banking farming religion trade unions charities and hospitals have all lost their way through a series of scandals that we must learn from And disillusion with our leaders is at its peak Policy has been replaced by politicking Commentator author and former newspaper editor David Fagan asks the questions we all want answered as he traces the not so gentle decline of important Australian institutions Through analysis and interviews with experts he explores what has defined Australia in the past and how we want to be defined in the future Peeling back the rot that has contaminated almost everything Australians believe in he asks are we still the economically socially and culturally strong country that most aspire to Should we be alarmed Or has the laconic Australian drifted from believing she ll be right to being a bloody knocker *Has the Luck Run Out* shines a spotlight on the mistakes we have made our national disillusion and looks to what can be done to re set the mood of the times And more importantly what we have to do to set things right

Re-examining the UK

Newspaper Industry Marc Edge,2022-10-31 This book dispels myths surrounding the newspaper industry s financial viability

in an online world arguing that widespread predictions of pending newspaper extinction are based mostly on misunderstandings of the industry's operations. Drawing from his training as a business journalist, Marc Edge undertakes a thorough analysis of annual financial statements provided by newspaper companies themselves to explain the industry's arcane economics. This book contextualizes available data within the historical context in which various news publishers operate and outlines the economic history of UK newspapers. It also investigates how UK newspapers survived the 2008–09 recession, considering both national and provincial markets separately. A rigorous look at an often neglected aspect of the newspaper industry, this volume will be an essential read for scholars of media studies, journalism studies, and communication studies, especially those interested in studying journalism and news production as occupational identities.
