Learning Jazz Ken Prouty, 2023-11-27 Learning Jazz Jazz Education History and Public Pedagogy addresses a debate that has consumed practitioners and advocates since the music's early days. Studies on jazz learning typically focus on one of two methods: institutional education or the kinds of informal mentoring relationships long associated with the tradition. Ken Prouty argues that this distinction works against a common identity for audiences and communities. Rather, what happens within the institution impacts and is impacted by events and practices outside institutional contexts. While formal institutions are well defined in educational and civic contexts, informal institutions have profoundly influenced the development of jazz and its discourses. Drawing on historical case studies, Prouty details significant moments in jazz history. He examines the ways that early method books capitalized on a new commercial market, commandeering public expertise about the music. Chapters also discuss critic Paul Eduard Miller and his attempts to develop a jazz canon, as well as the disconnect between the spotlighted great men and the everyday realities of artists. Tackling race in jazz education, Prouty explores the intersections between identity and assessment. Bandleaders Stan Kenton and Maynard Ferguson, public school segregation, Jazz at Lincoln Center, and more. He further examines jazz's public pedagogy and the sometimes difficult relationships between jazz people and the general public. Ultimately, Learning Jazz posits that there is room for both institutional and noninstitutional forces in the educational realm of jazz.

Whiteface Michel Büch, 2022-02-07 This study originates in the observation that improv comedy or improvised theater has such a vast majority of white people practicing it, while other improvisational or comedic art forms like jazz, freestyle rap, stand up are historically grounded in and marked as Black cultural production. What it is about improv that makes it such a white space. Can an absence be an object of study? If so, what is there to study? Where should one look?

Jazz in New Orleans Charles Suhor,2001-04-11 Jazz in New Orleans provides accurate information about and an insightful interpretation of jazz in New Orleans from the end of World War II through 1970 Suhor relying on his experiences as a listener a working jazz drummer and writer in New Orleans during this period has done a great service to lovers of New Orleans music by filling in some gaping holes in postwar jazz history and cutting through many of the myths and misconceptions that have taken hold over the years Skillfully combining his personal experiences and historical research the author writes with both authority and immediacy The text rich in previously unpublished anecdotes and New Orleans lore is divided into three sections each with an overview essay followed by pertinent articles Suhor wrote for national and local journals including Down Beat and New Orleans Magazine

Section One Jazz and the Establishment focuses on cultural and institutional settings in which jazz was first battered then nurtured It deals with the reluctance of power brokers and the custodians of culture in New Orleans to accept jazz as art until the music proved itself elsewhere and was easily recognizable as a marketable commodity

Section Two Traditional and Dixieland Jazz highlights the music and the musicians who were central to early jazz styles in New Orleans between 1947 and 1953

Section Three An Invisible Generation will help dispel the stubborn myth that almost no one was playing be bop or other modern jazz styles in New Orleans before the current generation of young artists appeared in the 1980s
