HIV is a story my story of survival of AIDS in the years after 2000 and having to cope with the challenges it presented me It is
so disturbing and disheartening to see the growing indifference toward HIV and to have a younger generation oblivious and
unconcerned by its possible resurgence as a life altering moment in their carefree lives I was told that I was going to die
numerous times in November 1999 but I astounded them first by recovering and then with my determination and use of
imagination in my therapies and exercises hoping to regain what I had lost at the beginning of my bout with PML Progressive
Multifocal Leucoencephalopathy I usually explain PML as like having a stroke It is the simplest explanation The PML had
taken so much from me which left me to re build my shattered life piece by piece and this book highlights the various
obstacles I had to overcome to attain my goals Every barrier presented to me brought a new round of flashbacks of my
childhood my career and my happy go lucky gay life As I improved every hurdle inspired me to write my thoughts Many
things have changed since I first faced the onset of AIDS new forms of treatments new drugs and new hope as well as
indifference and attitudes This story can be used for any physical challenge but gives a more human feel to the HIV AIDS
