Handbook of Children's Rights Martin D. Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults In addition there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self-determination With contributions from a wide range of international scholars the Handbook of Children's Rights brings together research theory and practice from diverse perspectives on children's rights This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights including the best interests of the child evolving capacities of the child states rights versus children's rights rights of children versus parental or family rights children as citizens children's rights versus children's responsibilities and balancing protection and participation In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches e.g. childhood studies developmental psychology sociology of childhood anthropology and political science The handbook also brings together diverse methodological approaches to the study of children's rights including both quantitative and qualitative perspectives and policy analysis This comprehensive cosmopolitan and timely volume serves as an important reference for both scholarly and policy-driven interest in the voices and perspectives of children and youth

Kids and branding in a digital world Barry Gunter, 2015-11-01

As consumer markets have developed and become more crowded and competitive so brands have become more important in enabling consumers to make informed choices This book shows how children become engaged with brands and understand what they mean and how their relationship with brands changes over time as they mature as consumers It sets this development against the changes that have occurred in styles of brand promotion in the digital world where more subtle ways of reaching consumers have been developed by brand marketers Children become aware of brands from an early age Even before they start school they can recognise brand names and ask for brands by name The meaning of brands to children can vary dramatically with age As with other aspects of consumer socialisation children s initial orientation towards brands occurs at a superficial level because their level of cognitive development does not allow them to understand deeper seated symbolic meanings of brands Children s understanding of brands and the relationships they have with them may also be influenced by the new promotional techniques developed by marketers Children s recognition of advertisements depends upon being able to identify specific features which signal a persuasive message In the online world of social media and

computer games the presence of brands may not be recognized as advertising and so the usual learned defenses against persuasion are not triggered This could place young consumers at a disadvantage This phenomenon has raised important questions for parents educators and marketing regulators and these are addressed in this book through reference to the latest research and writings from around the world

Cyberbullying and Sexting Elizabeth Agnew, 2024-02-08 Drawing on two empirical studies and influential theoretical frameworks this book provides a critical overview of the key regulatory challenges concerning cyberbullying and sexting behaviours among young people persons under 18 years The author explores issues such as conceptualising the behaviours examining the prevailing presence of sexism myths and stereotypes surrounding gender roles and identity and the limitations of criminal law as an effective regulatory tool In doing so identifying peer based sexting behaviours as part of a continuum of sexual behaviour is promoted alongside the need to consider interventions beyond the legal landscape and in line with the United Nations Convention on the Rights of the Child In the main priority is given to non legal responses and the need for more effective and comprehensive gender sensitive education programmes The book therefore provides a more developed conceptual understanding of sexting and cyberbullying behaviours among young people

Annual of the Southern Baptist Convention Southern Baptist Convention, 1923

Law and Migration in a Changing World Marie-Claire Foblets, Jean-Yves Carlier, 2022-04-05 This volume comprises national reports on migration and migration law from 17 countries representing all continents The vast majority of these are countries of immigration which means they face specific challenges in terms of managing migratory flows that are increasingly linked with climate change and scarce natural resources worldwide and they need to find viable ways to integrate humanitarian migration Unlike so many recent publications in the field of international migration law this book brings together reports on diverse countries that are rarely regarded as part of one and the same picture depicting globalized migration in the contemporary era that to a large extent challenges state sovereignty The contributions delineate the legal regimes that individual states are continually developing and modifying with a view to managing and controlling access of individual persons to their respective territories They also show how the restrictive measures that states resort to in the event of failure to manage migration could have a lasting legal impact The General Report preceding the country reports provides a comparative overview of the national reports and is divided into two parts The first more technical in nature addresses the classic questions relating to admission to and residence in a country The second more reflective section examines the relationship between laws and migration in a wider and multidisciplinary perspective To allow a robust comparison the country reports all follow a similarly wide ranging structure to the extent possible they also cover the historical sociological and demographic factors that help explain legal regimes and migratory flows in each country Each country report includes analyses of recent legislative developments and delicate questions that are still awaiting adequate legal responses as well as perspectives for the future
