postprocessing to simulate the look of analog film We talk about the specific and beloved look of certain films and how their
sensitivity and grain add a charm to the image Delving deeper a reason for the analog renaissance might be our growing
desire to slow down to immerse ourselves and sharpen our creative senses by restraining the means with which we
photograph Where the digital camera is soon so perfect that we as photographers can sometimes feel redundant the analog
camera requires our undivided presence These cameras are subject to the same limitations as they were in the dawn of
photography You must visualize what you want to create beforehand and you cannot rely on an lcd to feed you the result
