**AIR CRASH INVESTIGATIONS: DEADLY MISTAKES The Crash of Air China Flight 129** George Cramoisi,

editor,2012-04 On April 15 2002 Air China flight 129 a Boeing 767 200ER operated by Air China en route from Beijing China to Busan Korea crashed on Mt Dotdae near Gimhae Airport Busan Of the 166 persons on board 37 persons survived the crash while 129 occupants were killed The Korean Aviation Accident Investigation Board KAAIB determined that the probable cause of the crash was pilot error due to poor crew resource management and lost situational awareness during the circling approach of the runway The Chinese investigation team pointed out that the Korean ATC was not fully licensed and mistakenly directed the airliner to descend to a wrong altitude and that the airport did not inform the crew of the weather conditions at the time A contributing factor was that the airline made all announcements in Chinese and English while most passengers were Korean

*Finance and Hedging in the Commercial Airline Industry* Tony Webber,2024-09-13 When there is political tension or war in the Middle East or in Eastern Europe oil and jet fuel prices shoot upward If an airline isn't protected against these higher prices they can devastate its finances and send it quickly into bankruptcy This seemingly happens on a yearly basis Thankfully for most airlines they are able to protect themselves against higher oil and jet fuel prices at least in the short term by hedging using financial instruments The challenge for airlines is to determine which financial instruments they should use in which products they should hedge and how far out from fuel consumption they should hedge This book systematically explores the different financial instruments that airlines have to choose from and in what situations they should be used It will also present the reader with the options airlines have in terms of manipulating operational levers in response to higher fuel prices such as airfares capacity and fleet size once the protective benefits of hedging wear off

**CRM & FFHH** Facundo Conforti,2023-05-21 More than a century has passed since humans conquered the sky Like any conquest it required assuming countless risks to achieve it Once achieved the process of consolidation begins along with stabilization Time and hard work are what allow this stabilization to be secure Just like in every human conquest this process has not escaped the chronological logic of growth Of course aviation is not exempt from this developmental mechanism of conquests Unfortunately for this industry the process of growth comes with the loss of lives After more than a century of conquest it could be said that the aviation industry is in the stabilization phase achieving established reliable and sustainable safety standards If we have reached this stage it is the result of work research study and the construction of what we now know as a safety culture The conquest of the sky and safe aviation require constant actions to maintain and increase the levels of safety that have been achieved That is why this work highlights the most significant aspects of the development of concepts and techniques that have served served and will continue to serve flight crews in maintaining and improving the mentioned standards

**AIR CRASH INVESTIGATIONS - KILLING 290 CIVILIANS - THE DOWNING OF IRAN AIR FLIGHT 655 BY THE USS VINCENNES** Dirk Barrevelde,2018-10-07

On July 3 1988 the American navy ship USS Vincennes a Ticonderoga class guided missile cruiser operating in the Persian Gulf shot down Iran Air Flight 655 an Airbus A300B2 203 on its way from Tehran to Dubai All 290 people on board died Iran Air 655 flew within its assigned corridor The USS Vincennes thought it had to deal with an Iranian F 14 fighter jet From this point of view it was simply a case of mistaken identity It is amazing that a guided missile cruiser with extremely advanced electronic capabilities such as the USS Vincennes equipped with an ultra modern system such as Aegis could make such a case of mistaken identity Although the U S had to pay damages a clear admission of guilt the officers and commander of the Vincennes received awards and decorations after all By the Sound of Silence: A Novella on Malaysia Airlines Flight MH370 Collin Cheng,2016-11-29 On March 8 2014 Malaysian Airlines Flight MH370 left Malaysia on its way to China and never arrived Radar contact was lost by both air traffic control and the Malaysian military The plane never reached its destination In fact it seemed as though the passenger jet had simply vanished but how does a massive plane just disappear Insurance investigator Angeline Herman is soon pulled into the investigation as answers are obsessively sought the lives of hundreds presumed lost with no one to blame CIA Agent Chris Channing joins forces with her and their destinies are soon entwined as they seek answers to a mystery that holds the fate of nations but will they find the truth

probability of an already remote event ever recurring Plane Crash an unprecedented collaboration between mechanical engineering professor George Bibel and airline Captain Robert Hedges shares the riveting stories of both high profile and lesser known airplane accidents Drawing on accident reports eyewitness accounts and simple diagrams to explain what went wrong in the plane and in the cockpit Hedges provides invaluable insight into aviation human factors while Bibel analyzes mechanical failures No prior scientific knowledge is needed to understand the principles and procedures this book describes only an interest in the view from what Captain Hedges describes as the best seat in the house Organized around the phases of flight takeoff climb cruise approach and landing this book is a captivating look at some of the most dramatic plane crashes of the modern age including Asiana Airlines 214 Air France 447 and Malaysia Airlines 370 If you have ever wondered what goes through a pilot s mind as a flight takes a turn for the dangerous what impact turbulence actually has on flight safety or even just how the wonders of aeronautics work to keep passengers safe day in and out Plane Crash will both fascinate and educate
