Food Additive User's Handbook James S. Smith, 2013-03-09 The aim of this book is to present technical information about the additives used in food product development in a concise form Food product development is an activity which requires application of technical skills and the use of a diverse range of information Normally this information is scattered throughout the vast food science literature in journals and books and in technical publications from the various suppliers It has been my experience through consulting

with the food industry that there is a need for information on food additives in a quick to use form in tables and figures where possible Time wasted during information retrieval causes delay in practical development work which results in delay of product launch and possibly the loss of market advantage This handbook will be used by food product development staff and by all food scientists requiring access to information on food additives in a quick to use format Some knowledge of food science is assumed Each chapter contains a bibliography which can be consulted if further information is required Local legislation will have to be consulted to determine the legality of use of the additive in which foods and at what level of addition Information on safety can be found in Food Additives Handbook 1989 by R J Lewis published by Van Nostrand Reinhold New York
