web nov 26 2020 welcome back to electroduino this blog is based on the automatic street light project using ldr and lm358 op amp ic here we will discuss introduction to automatic street light project project concept block diagram components required circuit diagram working principle

automatic street light control circuit using ldr transistor - Feb 28 2023

web the automatic operation of street light controlling systems help to reduce the energy consumption as compared to the manually operated street light controlling operations this is because there is a delay in the earlier switching operations both in morning during sunrise and evening during sunset

smart street light project using arduino ldr and ir sensors - Jun 22 2022

web jan 12 2022 what sensors do smart street lights use the sensors used in a street light project using arduino are ir

sensors or ultrasonic sensors other components are arduino uno two ir sensors light depending resistor ldr two 220 Ω
resistors one 1 k Ω resistor two leds what are the advantages of smart street lights the smart street
