## **Good S On Chinese History:**

**Routledge Handbook of Imperial Chinese History** Victor Cunrui Xiong, Kenneth Hammond, 2018-09-17 The resurgence of modern China has generated much interest not only in the country's present day activities but also in its long history. As the only uninterrupted ancient civilization still alive today, the study of China's past promises to offer invaluable insights into understanding contemporary China. Providing coverage of the entire Imperial Era (221 BCE–1912 CE), this handbook takes a chronological approach. It includes comprehensive analysis of all major periods from the powerful Han empire, which rivalled Rome, and the crucial transformative period of the Five Dynasties to the prosperous Ming era and the later dominance of the non-Han peoples. With contributions from a team of international authors, key themes include Political events and leadership, Religion and philosophy, Cultural and literary achievements, Legal, economic, and military institutions. This book transcends the traditional boundaries of historiography, giving special attention to the role of archaeology. As such, the *Routledge Handbook of Imperial Chinese History* is an indispensable reference work for students and scholars of Chinese, Asian, and World History.

*Telling Chinese History* Frederic E. Wakeman, 2009-03-10 Frederic Wakeman's scholarship is impeccable, and the breadth of learning in this book is astounding. I repeatedly found myself slowing down to savor the material. Many of the essays in this collection are no longer easily accessible, and placing them together in a single volume will be a great benefit to the next generation of students and scholars.

Joseph W. Esherick, author of *The Origins of the Boxer Uprising*. This book brings together the best of Frederic Wakeman's articles, all of which are beautifully written and represent the remarkable breadth of Wakeman's research. The opportunity to read them together sheds new light on Chinese history and on the thought processes of one of the West's greatest historians.

Madeleine Zelin, Director of the East Asian National Resource Center at Columbia University.

*Sources in Chinese History* David Atwill, Yurong Atwill, 2021-03-03 *Sources in Chinese History* now in its second edition has been updated to include re-translations of over a third of the documents. It also incorporates nearly 40 new sources that work to familiarize readers with the key events, personages, and themes of modern China. Organized thematically, the volume examines China's complex history from the rise of the Qing dynasty in the mid-seventeenth century through the formation of the People's Republic of China up to the present. Each chapter begins with an annotated visual source, followed by a chapter introduction and analysis of textual sources, allowing students to explore different types of sources and topics. *Sources in Chinese History* contextualizes the issues, trends, and challenges of each particular period. Special attention has been made to incorporate a variety of viewpoints which challenge standard accounts. Non-traditional documents such as movie dialogues are also included, which aim to encourage students to reconsider historical events and trends in Chinese history. This volume includes a variety of sources such as maps, posters, film scripts, memorials, and political cartoons and advertisements that make this book the perfect introductory aid for students of Chinese history, politics, and culture, as well as Chinese studies after 1600.

Clarke,2013-08-01 The Chinese Catholic Church traces its living roots back to the late sixteenth century and its historical roots back even further to the Yuan dynasty This book explores paintings and sculptures of the Virgin Mary and the communities that produced them over several centuries It argues for the emergence of distinctly Chinese Catholic identities as artistic representations of the Virgin Mary at different times and in different places absorbed and in turn influenced representations of Chinese figures from Guanyin to the Empress Dowager At other times indigenous styles have been diluted by Western influences following the influx of European missionaries in the nineteenth century for example or with globalization in recent years The book engages with history theology and art and draws on imagery and archival photographs that have been largely neglected As a study of the social and cultural histories of communities that have survived over many centuries this book offers a new view of Catholicism in China one that sees its history as more than simply a cycle of persecution and resistance Fr Jeremy Clarke SJ is an Australian Province Jesuit teaching as an assistant professor in the History Department of Boston College He is also a school visitor in the Australian Center for China in the World at the Australian National University Canberra

**The Song-Yuan-Ming Transition in Chinese History** Paul Jakov Smith,Richard von Glahn,2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change

particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271-1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing comic drama and medical learning
