Written by two librarians with extensive publication experience, this book provides practical techniques and tools to prepare librarians to publish successfully. This book is neither a research methodology nor a craft of writing book. Instead, its sole goal is to help librarians and other information science professionals start writing, identify an outlet for publication, and publish successfully. It dispels the myths surrounding scholarly writing by providing practical tools and advice to help soon-to-be authors get started on the publication journey now. This book will guide aspiring authors step by step through the writing and publication process, from nurturing an idea to fruition all the way to enjoying a successful publication. Along the way, readers will learn how to identify the best publication type and venue, gather the needed information to make a convincing argument, and skillfully manage even the most complex project. Topics range from cerebral, such as how to maintain motivation through a project, to technical, such as common grammar and vocabulary errors, but all are designed to be practical and of immediate use to a writer. Whether a graduate student at the beginning of your career in the field of information sciences, a newly minted librarian fresh out of graduate school, a library administrator at the peak of your career, or somewhere in between, publishing can keep you engaged in the issues facing the profession and enhance your career and professional success.
