Code Charles Petzold, 2000-10-11. What do flashlights, the British invasion, black cats, and seesaws have to do with computers? In *CODE*, they show us the ingenious ways we manipulate language and invent new means of communicating with each other. And through *CODE*, we see how this ingenuity and our very human compulsion to communicate have driven the technological innovations of the past two centuries. It's a cleverly illustrated and eminently comprehensible story, and along the way, you'll discover you've gained a real context for understanding today's world of PCs, digital media, and the Internet.
