Supporting Entrepreneurship and Innovation Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005 Mahmood Mamdani, 2007 Scholars in the Marketplace is a case study of market based reforms at Uganda's Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private purposes **Postgraduate Research Engagement in Low Resource**

Settings Atibuni, Dennis Zami, 2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike Postgraduate Research Engagement in Low Resource Settings sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students

Handbook of Research on Effective Project Management through the Integration of Knowledge and Innovation Jamil, George Leal,Lopes, Sérgio Maravilhas,Malheiro da Silva, Armando,Ribeiro, Fernanda,2015-01-31 The field of project management experiences conceptual technological and decision issues when projects are created implemented and executed without the needed strategic connection It is important to improve the connection between knowledge management and project management practices The Handbook of Research on Effective Project Management through the Integration of Knowledge and Innovation bridges the gap between knowledge management and project management practices by providing both classical and modern views on their relationship Discussing principles practices methods and real case studies this book describes the importance of aligning projects with a knowledge based strategic plan to the benefit of practitioners professionals scholars and researchers in the fields of management and information science Herald of Library Science ,1997 Bulletin of the Public Affairs Information Service Public Affairs Information Service,1989

Women in Higher Education Laura Mae Siaya,1999 The Crime of Genocide: Then and Now Pavel Šturma,Milan Lipovský,2022-08-22 In this original and thought provoking collection the Editors provide a multilayered study of the crime of crimes Adopted in 1948 and based on Raphael Lemkin s idea the definition of genocide belongs to the cornerstones of international criminal law and justice This volume focuses on among other topics the narrow scope of protected groups wider domestic adaptations of the definition denial of genocide and current legal proceedings related to the crime in front of the ICJ and ICC In this way its authors based primarily in Central and Eastern Europe analyse and discuss the readiness of the definition to meet the challenges of criminal justice in our changing world The volume thus offers much fresh thinking on the international legal and legal policy complexities of genocide seventy years after the Genocide Convention s entry into force **Education and Research in Public**

Administration in Africa Adebayo Adedeji,Colin Baker,2023-08-31 Originally published in 1974 this book is a valuable contribution to the literature about the African context of public administration The application of research to public administration and the communication of research findings are discussed in depth All aspects of the subject are presented non university based non academic institutes as well as undergraduate and post graduate programmes The book concludes with some non African comparisons from Australia France the USA and UK *The Faces of Human Rights* Kasey McCall-Smith,Jan Wouters,Felipe Gómez Isa,2019-05-16 As human rights discourse increasingly focuses on analysing states and the institutions that promote and support the human rights machinery that states have created this volume serves to recall that despite the growing size of the machinery and unwieldy nature of states human rights began with real people It samples a broad range of actors and localities where everyday people fought to ensure that the basic principles of human rights became a reality for all This volume will give a face to the everyday people to whom credit is due for shaping human

rights It also responds to the perennial question of how to begin a career in human rights by highlighting that there is no single path into this dynamic field a field built on the back of small initiatives by people across a broad spectrum of career paths

Handbook of Research on Library Response to the COVID-19 Pandemic Holland, Barbara, 2021-03-19 Since the spread of COVID 19 conferences have been canceled schools have closed and libraries around the world are facing difficult decisions on which services to offer and how ranging from minimal restrictions to full closures Depending on the country state or city a government may have a different approach sometimes ordering the closure of all institutions others indicating that it s business as usual and others simply leaving decisions up to library directors All libraries worldwide have been affected from university libraries to public library systems and national libraries Throughout these closures libraries continue to provide services to their communities which has led to an emerging area of research on library services new emerging technologies and the advancements made to libraries during this global health crisis The Handbook of Research on Library Response to the COVID 19 Pandemic consists of chapters that contain essential library services and emerging research and technology that evolved and or has continued during the COVID 19 pandemic as well as the challenges and opportunities that have been undertaken as a result The chapters provide in depth research surveys and information on areas such as remote working machine learning data management and the role of information during COVID 19 This book is a valuable reference tool for practitioners stakeholders researchers academicians and students who are interested in the current state of libraries during a pandemic and the future outlook
