change on individuals not just in their working lives but also in their family and social lives

The Oxford Handbook of Health Care Management Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016-04-07 This Handbook provides an authoritative overview of current issues and debates in the field of health care management. It contains over twenty chapters from well known and eminent academic authors who were carefully selected for their expertise and asked to provide a broad and critical overview of developments in their particular topic area. The development of an international perspective and body of knowledge is a key feature of the book. The Handbook secondly makes a case for bringing back a social science perspective into the study of the field of health care management. It therefore contains a number of contrasting and theoretically orientated chapters e.g. on institutionalism, critical management studies. This social science based approach is a refreshing alternative to much existing work in this domain and offers a good way into current academic debates in this field. The Handbook thirdly explores a variety of important policy and organizational developments apparent within the current health care field e.g. new organizational forms, growth of management consulting in health care organizations. It therefore explores and comments on major contemporary trends apparent in the practice field.

The Oxford Handbook of Critical Management Studies Mats Alvesson, Todd Bridgman, Hugh Willmott, 2009-06-18 Critical Management Studies (CMS) has emerged as a movement that questions the authority and relevance of mainstream thinking and practice. Critical of established social practices and institutional arrangements, it challenges prevailing systems of domination and promotes the development of alternatives to them. CMS draws upon diverse critical traditions. Of particular importance for its initial articulation was the thinking of members of the Frankfurt School of Critical Theory. From these foundations, CMS has grown into a pluralistic and inclusive movement incorporating a diverse range of perspectives ranging from labour process theory to radical feminism. In recent times, a set of ideas broadly labelled poststructuralist have been developed to complement and challenge the insights of Critical Theory, giving new impetus for scholars seeking to challenge the status quo and articulate a more inclusive and humane future for management practice. The Oxford Handbook of Critical Management Studies provides an overview of theoretical approaches, key topics, issues and subject specialisms in management studies, as well as a set of reflections on the progress and prospects of CMS. Contributors are all specialists in the respective fields and share a concern to interrogate and challenge received wisdom about management theory and practice. Given the rapid growth of the CMS movement, its ever increasing theoretical and geographical diversity and its outreach into the public sphere, The Oxford Handbook of Critical Management Studies is a timely publication. In addition to UK contributors, where CMS has developed most rapidly, there is strong representation from North American contributors, as well as from areas where CMS has taken hold more recently, such as Australasia.

Management Education in Canada Kristin S. Williams, Albert J. Mills, Heidi Weigand, 2025-05-23 Management Education in Canada: Historical Reflections offers a fresh and critical look at the evolution of management education in Canada. Nearly 25 years after the seminal work Capitalizing Knowledge by Barbara Austin, this

edited collection revisits and expands upon the debates that shaped the field while introducing new perspectives and overlooked histories Featuring ten scholarly essays from leading academics this volume explores a range of critical and historiographic approaches to management education highlighting the ways in which history is written privileged and at times neglected Through a variety of themes including the gendered experiences of female Ph D graduates Africentric and Indigenous leadership approaches and the role of globalization in shaping management curricula the book prompts readers to reflect on the past present and future of management education in Canada Chapters cover topics such as the influence of the Administrative Sciences Association of Canada the underrepresentation of French language business education and the critical interrogation of management textbooks Together these chapters offer a rich and comprehensive analysis of the cultural institutional and intellectual forces shaping the discipline This volume will engage scholars educators and students in business schools faculties of management and those interested in the broader history of higher education as well as anyone seeking to understand the historical development of management education in Canada It is an essential contribution to the ongoing conversation about what management education has been and what it could become
