Traditional Wisdom and Modern Knowledge for the Earth's Future Kohei Okamoto, Yoshitaka Ishikawa, 2014-07-08 The title of this book Traditional Wisdom and Modern Knowledge for the Earth's Future is from the theme of the 2013 Kyoto Regional Conference of the International Geographical Union Over the past few decades globalization has strengthened connections among countries and regions of the world and has greatly changed existing geographies However this trend has also fostered various problems on a regional or global scale such as economic imbalance social fragmentation political conflicts and environmental crises While acknowledging the world's diversity geography as a discipline must endeavor to resolve these problems by devising plans for cooperation and symbiotic existence of the different peoples of the world An old Japanese proverb On ko chi shin taken from a Chinese one Wengu Zhixin says that only by exploring the old can one understand the new People should first understand how traditional ideas linked to interaction between society culture and the environment were formed in different countries and regions Traditional wisdom in harmony with the environment remains prevalent This book examines how we can mold the earth's future through such traditional wisdom and modern knowledge from the nine keynote speeches of the Kyoto Regional Conference focusing on three topics traditional wisdom the environment and the Great East Japan Earthquake

Wealth, Poverty and Politics Thomas Sowell, 2016-09-06 In Wealth Poverty and Politics Thomas Sowell one of the foremost conservative public intellectuals in this country argues that political and ideological struggles have led to dangerous confusion about income inequality in America Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality the production of wealth We cannot properly

understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography demography and culture Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state Refuting Thomas Piketty Paul Krugman and others on the left Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe Transcending partisanship through a careful examination of data Wealth Poverty and Politics reveals the truth about the most explosive political issue of our time
