Author: Nekisa Mahzad

I have been a student at California State University Channel Islands (CI) for 5 semesters, and over the course of my stay I have grown and learned more than I thought possible. I came to this school from Moorpark Community College already knowing that I wanted to be an English teacher; I had taken numerous English courses and though I knew exactly what I was headed for-was I ever wrong. Going through the English program has taught me so much more than stuff about literature and language, it has taught me how to be me. I have learned here how to write and express myself, how to think for myself, and how to find the answers to the things that I don't know. Most importantly I have learned how important literature and language are.

When I started at CI, I thought I was going to spend the next 3 years reading classics, discussing them and then writing about them. That was what I did in community college English courses, so I didn't think it would be much different here. On the surface, to an outsider, I am sure that this is what it appears that C.I. English majors do. In most all my classes I did read, discuss, and write papers; however, I quickly found out that that there was so much more to it. One specific experience I had while at C.I. really shows how integrated this learning is. Instead of writing a paper for my final project in Perspectives of Multicultural Literature (ENGL 449), I decided with a friend to venture to an Indian reservation and compare it to a book we read by Sherman Alexie. We had a great time and we learned so much more that we ever could have done from writing a paper. The opportunity to do that showed me that there are so many ways that one can learn that are both fun and educational.

The English courses also taught me how powerful the written word and language can be. Words tell so much more than a story. Stories tell about life and the human condition, they bring up the past and people and cultures that are long gone. Literature teaches about the self and the world surrounding the self. From these classes I learned about the world, its people and its history; through literature I learned how we as humans are all related. By writing about what we learn and/or what we believe, we are learning how to express ourselves.

I know that my ability to write and express my ideas, thoughts and knowledge has grown stronger each semester. I have always struggled to put my thoughts on paper in a manner that is coherent and correct according to assignments. I can remember being told numerous times in community college to "organize your

Teaching Shakespeare Beyond the Major M. Tyler Sasser, Emma K. Atwood, 2024-02-22 This edited collection considers the task of teaching Shakespeare in general education college courses a task which is often considered obligatory perfunctory and ancillary to a professor's primary goals of research and upper level teaching The contributors apply a variety of pedagogical strategies for teaching general education students who are often freshmen or sophomores non majors and or non traditional students Offering instructors practical classroom approaches to Shakespeare's language performance and critical theory the essays in this collection explicitly address the unique pedagogical situations of today's general education college classroom

The Humble Argument Roy K. Humble, 2023-04-01 The Humble Argument is so much more than a writing textbook. It gives you tools, tips, and tricks that actually explain what a writer does. It doesn't sugarcoat the process or dumb down the very real challenges that entering a college writing space requires. This book is more like a friend. It's the kind of friend that will coach you through a tough time and encourage you, and it will make you laugh while you go through it. It's the kind of friend who holds your hair back when you're sick of writing and gives you the courage to try again. Roy K. Humble is the kind of writing teacher who understands the struggle of learning how to write arguments like a college student and doesn't just tell you what you want to hear. His lessons here are profound but in the sense that they are delivered by someone who wants you to feel included in the conversation about what good college writing should be. He writes to students in language they can understand without becoming English majors and with just enough humor to keep them reading. He writes for faculty, moving step by step through the unadorned guiding principles of effective formal writing so that faculty have a great framework on which to build their classes. Perhaps most importantly, Humble understands that the price of a book matters to students, so his books are affordable. From every perspective, Humble gets it. The Humble Argument has students covered on these important topics: Understanding argument as an idea, Grasping the stages of the writing process, Organizing an argument around rhetorical principles, Thinking for yourself as a college student, Crafting a careful and clear thesis, Gathering and synthesizing evidence to support a thesis, Guiding readers through a thoughtful persuasive essay. *Four Square: Writing Method Grades 7-9* Judy Gould, Evan Jay Gould, Mary F. O'Grady, 2014-04-08 The focus of this book is on the ways in which service learning and multicultural education can and should be integrated so that each may be strengthened and consequently have greater effect on educational and social conditions It offers a significant attempt to forge a dialogue among practitioners of service learning and multicultural education The overriding theme is that service learning without a focused attention to the complexity of racial and cultural differences can reinforce the dominant cultural ideology but academic work that seeks to deconstruct these norms without providing a community based touchstone isolates students and schools from the realities of the larger communities of which they are part Although the chapter authors provide varied perspectives on the benefits and challenges of integrating multicultural education and service learning they all are committed to a vision of education that synthesizes both action and reflection None of the authors pretend to have all the answers to what this integration should look like nor do they believe that today's social problems are easily ameliorated through education Rather they share theories practices failures and triumphs in order to further the conversation about the importance of aligning what educators say about the world and how they act in and on it These authors share the view that multicultural education is truly transformative for students only when it includes a community action component and likewise service learning is truly a catalyst for change only when it is done from a multicultural and socially just perspective It is their hope that the ideas explored in this book will further the work of those who share a commitment to the integration of action and reflection Concepts in Dental Public Health Jill Mason, 2020-03-17 Written specifically for dental hygienists this comprehensive textbook covers concepts issues techniques and methods related to dental public health It focuses on the assessment of factors that affect oral health of populations and the development of policy in response to a population's needs It also provides information regarding the active promotion of oral health maintenance This text is unique in that it applies the Dental Hygiene Process of Care a globally accepted foundational concept in clinical care for dental hygienists to the subject of dental public health lending it greater relevance and familiarity to dental hygiene students In addition the text is based on the American Association of Dental Educators Competencies for Dental Hygienists A chapter on National Board Preparation including Board style review questions prepares students for the national exam Review questions and learning activities are also incorporated into each chapter Taking the Writing off the Organizer Judy Gould, Evan Jay Gould, Mary F.
