Unschooling To University Judy L. Arnall,2018-09-21 School is one option for education homeschooling is the second and unschooling is the third Many parents are frustrated by the school system perhaps because of bullying crowded classrooms and outdated dull online courses Disengaged learners that have no say in their coerced curriculum tend to act out tune out or drop out Education must change and unschooling is the fastest growing alternative method of learning Two decades ago students registered with their local school based on their house address Now with the internet students are borderless Learning can occur anywhere anytime anyway and from anyone including self taught Self directing their education unschoolers learn through Play Projects Reading Volunteering Video games Sports Mentorship Travel Life This book explores the path of 30 unschooled children who self directed all or part of their education and were accepted by universities colleges and other postsecondary schools Most have already graduated What children need most are close relationships parents teachers siblings relatives coaches and mentors within a wider community not just within an institutional school Educational content is everywhere Caring relationships are not Families that embrace unschooling do not have to choose between a quality education and a relaxed connected family lifestyle They can have both      What We Know About Grading Thomas R. Guskey,Susan M. Brookhart,2019-02-04 Grading is one of the most hotly debated topics in education and grading practices themselves are largely based on tradition instinct or personal history or philosophy But to be effective grading policies and practices must be based on trustworthy research evidence Enter this book a review of 100 plus years of grading research that presents the broadest and most comprehensive summary of research on grading and reporting available to date with clear takeaways for learning and teaching Edited by Thomas R Guskey and Susan M Brookhart this indispensable guide features thoughtful thorough dives into the research from a distinguished team of scholars geared to a broad range of stakeholders including teachers school leaders policymakers and researchers Each chapter addresses a different area of grading research and describes how the major findings in that area might be leveraged to improve grading policy and practice Ultimately Guskey and Brookhart identify four themes emerging from the research that can guide these efforts Start

with clear learning goals Focus on the feedback function of grades Limit the number of grade categories and Provide multiple grades that reflect product process and progress criteria By distilling the vast body of research evidence into meaningful actionable findings and strategies this book is the jump start all stakeholders need to build a better understanding of what works and where to go from here      **Providing Context for Vocational Mathematics** Joanne K.
