Women in Management Worldwide Ronald J. Burke, Astrid M. Richardsen, 2016-08-12 Organizations today are facing unprecedented challenges including an ageing workforce potential talent shortages an increasingly competitive international environment and the need to utilize the talents of the best qualified people regardless of gender More women than men in many cases are graduating from universities and gaining the requisite experience to qualify for advancement to higher levels of management In this expanded and revised third edition Professors Burke and Richardsen together with a list of international contributors address women s progression in the workforce and into the upper echelons of management They cover a range of professions and a geographically dispersed territory thereby advancing the understanding of women in management within a traditional context and making a substantial contribution to the literature for both an academic and practitioner audience The broader regional perspective offers a comprehensive overview of the challenges and opportunities facing women in the workplace and promotes the ongoing analysis of the interface between women s career aspirations and societal and organizational norms assumptions and values Following the same format as the previous edition the country by country analysis allows for the data between countries and regions to be compared for the differences to be addressed and a more holistic picture of the situation in a given country to be assessed Women in Management Worldwide will appeal to researchers policy makers in a range of countries interested in workforce issues talent management and gender equality as well as consultants working with international organizations on HRM and organizational effectiveness challenges

Methodology of Islamic Economics Necmettin Kizilkaya, 2019-11-05 In its pursuit to equip the reader with a basic knowledge of Islamic economics this book divulges the micro foundations of the discipline and highlights the predominant schools of thought that exist in the field It explains in simple terms what Islamic economics entails and how it can be studied as a science in relation to the Holy Quran the Sunnah and the Islamic intellectual tradition

based on these two sources The book familiarizes the reader with knowledge of the basic maxims of the discipline It then establishes the arguments that are presented by the proponents of religion based economics specifically Islam and apprises readers about the aforementioned schools as they exist A number of chapters consider the dimension of the dilemmas the discipline is facing and the chronological progress of the field is reviewed hence providing a comprehensive overview of the topic The book deals with the issues about the origins of Islamic economics the basic methodological questions the use of the opportunities offered by fiqh in the methodological discussions and the main problems arising from the encounter with other cultures and civilizations It offers practical solutions despite the differing schools of thought not unlike the development of conventional Economics where radical differences between Keynesian Classical and Monetarist approaches existed It concludes by incorporating some of the finest works that explain to the reader how Islamic economics may progress as a discipline This guide will provide both students and researchers in Comparative Economic Studies Islamic Economics and Islamic Finance with an essential overview of the field

The Report: Trinidad & Tobago 2020 Oliver Cornock, Trinidad and Tobago is the largest producer of oil and gas in the Caribbean however like many hydrocarbon producing nations worldwide the slump in global energy prices beginning in 2014 negatively affected broader growth While there is a need to diversify the economy away from its dependence on hydrocarbons a number of new oil and gas discoveries in late 2019 appear set to support a short term recovery in the energy sector and lend financing to the wider economy

Morocco International Monetary Fund. Middle East and Central Asia Dept.,2017-02-03 This 2016 Article IV Consultation highlights that Morocco s macroeconomic conditions have improved since 2012 but growth has remained sluggish In 2016 growth slowed owing to a sharp contraction in agricultural output and subdued nonagricultural activity The unemployment rate decreased to 9.6 percent in the third quarter of 2016 while youth unemployment remains high at 21.8 percent Morocco s medium term prospects are favorable with growth expected to rebound to 4.4 percent in 2017 and reach 4.5 percent by 2021 However risks remain substantial and relate mainly to growth in advanced and emerging market economies geopolitical tensions in the region world energy prices and global financial market volatility

Mongolia's Economic Prospects Matthias Helble, Hal Hill, Declan Magee,2020-06-01 This publication examines Mongolia s recent economic development and outlines reforms that would help the country take advantage of its many opportunities Mongolia is rich in natural resources and although landlocked is well placed to boost trade with its two giant neighbors The country needs to diversify its economy beyond mining enhance economic stability and increase employment To maximize Mongolia s potential the government can improve macroeconomic management enhance the skill base and provide hard and soft infrastructure to promote trade and efficient logistics

Governance and institutional reforms are also crucial The government will need to continue to drive reforms so that they are well implemented and deliver the intended change **The Global Rise of Social Cash Transfers** Lutz

Leisering, 2018-11-30 The Universal Declaration of Human Rights 1948 proclaimed the equality of all human beings in dignity and rights The right to social security however has been taken more seriously only since the 2000s through calls for Social Security for All and Leaving no one behind The book investigates a major response social cash transfers to the poor The idea of simply giving money to the poor had been rejected by all major development organizations but since the early 2000s social cash transfers have mushroomed in the global South and on agendas of international organizations How come What programmes have emerged in which countries How inclusive are the programmes What models have international organizations devised Based on unique quantitative and qualitative data and on newly created concepts and indicators the book takes stock of all identifiable cash transfers in all Southern countries and of the views of all major international organizations The volume argues that cash transfers reflect broader changes new understandings of development of human rights of global risks of the social responsibility of governments and of universalism Social cash transfers have turned the poor from objects of charity into rights holders and agents of their own lives and of development A repertoire of cash transfers has evolved that has enhanced social citizenship but is limited by weak political commitments The book also contributes to a general theory of social policy in development contexts through a constructivist sociological approach that complements the dominant approaches from welfare economics and political economy and includes a theory of social assistance
