It's a hands-on human first field guide that covers what people really want to know: How to take your first great photo without understanding photography. How to focus, shoot, and adjust settings visually, not theoretically. How to record high quality video and audio for YouTube or family moments. How to avoid blurry images, confusing menus, and settings that ruin your shots. How to confidently use modes, buttons, autofocus, lenses, and flash. How to transfer, edit, and share your photos with ease. How to stop feeling lost and start enjoying your camera. Every chapter was written with one goal: to remove frustration and replace it with confidence.
