Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas,Shang Gao,Yijun Shen,Bilal Bawany,2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region's wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead

of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity *Transforming Higher Education for Community Development* ,2025-07-10 This volume explores educational transformation as a tool for community development in northern Uganda with an emphasis on student centred hybrid and problem based learning It addresses key questions about existing education systems the need for transformation desired outcomes and foreseeable challenges The introductory chapter contextualises the reforms within Uganda s colonial history while subsequent chapters analyse institutional practices curriculum design quality of education and innovation in teaching and learning The book argues for new participatory learning infrastructures real world problems and curricular entrepreneurship to enhance graduates employability and position them as active contributors to community development The book is the result of a long term partnership between universities Contributors are Rozalba Aciro Agatha Alidri Helen Christine Waiswa Amongin Adebua Asaf Judith Awacorach Jerry Bagaya Peter Kakubeire Baguma Abola Benard Ann Bygholm Helene Balslev Clausen Lone Dirckinck Holmfeld Betty Akullu Ezati Cornelia Thea Seger Jakobsen Iben Jensen Annebeth Colic Landsvig Inger Lassen Stephen Odama Denis Ofoyuru Collins Okello Charles Nelson Okumu John Bismarck Okumu David Ross Olanya David Onen Joseph Oonyu George Ladaah Openjuru George Orangi Palle Rasmussen Arne Remmen Frida Skovgaard S rensen Geoffery Olok Tabo Wycliffe Scot Wafula and Hanan Lassen Zakaria Commonwealth Universities Yearbook ,1987 **Parliamentary Debates (Hansard)**.
