Making Globalization Work:

Making Globalization Work Joseph E. Stiglitz, 2007-09-17 A damning denunciation of things as they are and a platform for how we can do better Andrew Leonard Salon Building on the international bestseller *Globalization and Its Discontents* Joseph E. Stiglitz offers here an agenda of inventive solutions to our most pressing economic social and environmental challenges with each proposal guided by the fundamental insight that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world As economic interdependence continues to gather the peoples of the world into a single community it brings with it the need to think and act globally This trenchant intellectually powerful and inspiring book is an invaluable step in that process *Making Globalization Work for Women*

Valentine M. Moghadam, Suzanne Franzway, Mary Margaret Fonow, 2011-11-28 Explores the potential for trade unions to defend the socioeconomic rights of women *Making Globalization Work* Joseph E. Stiglitz, 2007 This book focuses on policies that truly work offering fresh new thinking about the questions that shape the globalization debate including a plan to restructure a global financial system made unstable by America's debt ideas for how countries can grow without degrading the environment a framework for free and fair global trade and much more Throughout the author reveals that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world And he makes plain the real work that all nations must undertake to realize that goal Dust jacket

Making Globalization Work Shri Ram Centre for Industrial Relations and Human Resources, 2007 *Making Globalization Work for the Least Developed Countries* Kamal Malhotra, 2008 The benefits of globalizations have failed to reach the Least Developed Countries LDCs for both domestic and international reasons Internationally LDCs continue to face daunting structural constraints some of which have been inherited from their colonial past This publication comprises the papers and statements presented at the United Nations Ministerial Conference of the LDCs which draw attention to issues and challenges facing LDCs and provide policy makers practitioners and academics in LDCs with important policy guidance on the way forward *How Globalization Works* Laura La Bella, 2009-08-15 Explains what globalization is what caused it what the effects are what mechanisms triggered those causes *Making Globalisation Work*, 2006 *Why Globalization Works* Martin Wolf, 2005-06-10 A powerful case for the global market economy The debate on globalization has reached a level of intensity that inhibits comprehension and obscures the issues In this book a highly distinguished international economist scrupulously explains how globalization works as a concept and how it operates in reality Martin Wolf confronts the charges against globalization delivers a devastating critique of each and offers a realistic scenario for economic internationalism in the future Wolf begins by outlining the history of the global economy in the twentieth century and explaining the mechanics of world trade He dissects the agenda of globalization's critics and rebuts the arguments that it undermines sovereignty weakens democracy intensifies inequality privileges the multinational corporation and devastates

the environment The author persuasively defends the principles of international economic integration arguing that the biggest obstacle to global economic progress has been the failure not of the market but of politics and government in rich countries as well as poor He examines the threat that terrorism poses and maps the way to a global market economy that can work for everyone

A World United or a World Exploited? Peter Price,2014-09-01 The processes of globalisation are reshaping our world dramatically and rapidly The great issues of our day emphasise that we are all in this together startling inequalities pressures on the environment continuing hunger and poverty climate change economic integration mass migrations instant communications and recurring armed conflicts

Making Globalization Work for All Gretchen Sidhu,2007

Beyond the Spirit of Empire Joerg Rieger,2013-01-25 How does empire mould human subjectivity for instance and how does it affect the understanding of humans within the whole of creation This title analyzes the global empire in its political and economic dimensions in its symbolic constructions of power and in its general assumptions often taken for granted

Making Globalization Work for the World's Poor ,2000

Greed to Green Charles Derber,2015-11-17 This book shows how we can solve the climate change crisis which is the greatest threat humanity has faced Charles Derber a prominent sociologist and political economist shows that global warming is a symptom of deep pathologies in global capitalism In conversational and passionate writing Derber shows that climate change is capitalism s time bomb certain to explode unless we rapidly transform our economy and create a new green American Dream Derber shows there is hope in the financial meltdown and Great Recession we are now suffering The economic crisis has raised deep questions about Wall Street and the US capitalist model Derber systematically explores the causal links between capitalism and climate change a taboo subject in the U S and opens up new thinking to solve both the economic and climate crises

Political Morality in a Disenchanted World Edmund Abegg,2013-06-20 Political morality concerns what programs and policies government ought to adopt What would this morality look like in a disenchanted world one in which rationality prevails The enchanted world is extensive including not just religion but traditional morality In this book Edmund Abegg constructs a coherent path that leads from abstract psychological and moral theory to ideal political and economic scenarios and then to their real world applications which for him are in terms of national political goals These goals individual autonomy and welfare function as political morality in this new framework in place of traditional mythical ideas such as justice Descriptive chapters on our current world indicate that these goals are in play if only partly Concerning these national moral political goals which may be domestic or international the crucial distinction he seeks to establish is between aggregated or big picture goals and individualized goals The latter are typically seen as establishing individual rights This book establishes a framework that clarifies important public policy issues in a way not possible if a jungle growth of myth envelopes our efforts with confusion and unnecessary controversies

Making Globalization Work , Globalization and Society Dr. Bindeshwar Prasad Mandal,2021-09-11 Globalization is the process of international integration arising from the interchange of world views

products ideas and other aspects of culture Put in simple terms globalization refers to processes that promote worldwide exchanges of national and cultural resources Advances in transportation and telecommunications infrastructure including the rise of the Internet are major factors in globalization generating further interdependence of economic and cultural activities Globalization's contribution to the alienation of individuals from their traditions may be modest compared to the impact of modernity itself as alleged by existentialists such as Jean Paul Sartre and Albert Camus Globalization has expanded recreational opportunities by spreading pop culture particularly via the Internet and satellite television Religious movements were among the earliest cultural forces to globalize spread by force migration evangelists imperialists and traders Christianity Islam Buddhism and more recently sects such as Mormonism have taken root and influenced endemic cultures in places far from their origins Multilingual speakers outnumber monolingual speakers in the world's population Multilingualism is becoming a social phenomenon governed by the needs of globalization and cultural openness The book examines the subtle mechanisms of globalization and its effects namely adding wealth and prosperity to a few while misery and devastation to societies in Asian Latin American and African countries and especially India The book shows that globalization perpetuates and worsens the already existing uneven development in the world Contents Introduction Economic Globalization Society Features of Globalization Social and Cultural Impacts of Globalization Globalization and its Effect on Cultural Diversity Globalization Equality and Non discrimination Globalization and Migration Emerging Dilemmas and Policy Implications Modernization Theory and Globalization Theory The Future of Rural Communities in a Global Economy

International Ethics Mark R. Amstutz, 2013-02-21 Now in a comprehensively revised and updated edition *International Ethics* cogently demonstrates that moral values and ethical reasoning are indispensable in global politics Through balanced arguments and a wide ranging selection of case studies Mark R Amstutz convincingly demonstrates that moral norms are an essential element of foreign policy and that ethical analysis is central to the study of international relations Amstutz illustrates the role of moral norms in global politics with twenty five revised and new case studies The cases are focused on eight major global issues political reconciliation human rights war irregular war foreign intervention economic sanctions justice among states and global justice This clearly written study will be of special interest to students and practitioners of international affairs who are concerned with the role of political morality and ethical judgment in global affairs **Living at the Crossroads** Michael W. Goheen, Craig G. Bartholomew, 2008-11 An ideal introduction to thoughtful Christian engagement at the intersection of the biblical story and the contemporary world *Global Shaping and Its Alternatives* William K. Carroll, Yildiz Atasoy, Y?ld?z Atasoy, 2003-01-01 *Global Shaping and its Alternatives* offers a unique series of reflections on the connections between market capitalism the politics of alternatives and the cultural elaboration of social change It argues that there is a need for an alternative explanatory framework on globalization one that rejects fatalism and highlights the dynamic roles of states NGOs local fractions of capital democratic movements and gendered social relations

Without understanding how global shaping is taking place and how it affects human life across the globe there can be no transformational possibility for humanizing our conditions of existence *The EU, World Trade Law and the Right to Food* Giovanni Gruni, 2018-08-09 In recent years the European Union has developed a comprehensive strategy to conclude free trade agreements which includes not only prominent trade partners such as Canada the United States and Japan but also numerous developing countries This book looks at the existing WTO law and at the new EU free trade agreements with the Caribbean and sub Saharan Africa through the lens of the human right to adequate food It shows how the clauses on the import and export of food included in recent free trade agreements limit the capacity of these countries to implement food security policies and to respect their human rights obligations This outcome appears to be at odds with international human rights law and dismissive of existing human rights references in EU founding treaties as well as in treaties between the EU and developing states Yet the book argues against the conception in human rights literature that there is an inflexible agenda encoded in world trade law which is fundamentally conflictual with non economic interests The book puts forward the idea that the European Union is perfectly placed to develop a narrative of globalisation considering other areas of public international law when negotiating trade agreements and argues that the EU does have the competences and influence to uphold a role of international leadership in designing a sustainable global trading system Will the EU be ambitious enough A timely contribution to the growing academic literature on the relation between world trade law and international human rights law this book imagines a central role for the EU in reconciling these two areas of international law
