Malabar Manual By William Logan:

A Commentary on the Malabar Manual Written by William Logan VOL 1 V. E. D. from VICTORIA INSTITUTIONS, 2018-01-03 William Logan's Malabar is popularly known as Malabar Manual. It is a huge book of more than 500 000 words. It might not be possible for a casual reader to imbibe all the minute bits of information from this book. However, in this commentary of mine, I have tried to insert a lot of such bits and pieces of information by directly quoting the lines from Malabar. On these quoted lines, I have built up a lot of arguments and also added a lot of explanations and interpretations. I do think that it is much easier to go through my Commentary than to read the whole of William Logan's book Malabar. However, the book Malabar contains much more items than what this Commentary can aspire to contain. This book Malabar will give very detailed information on how a small group of native Englishmen built up a great nation by joining up extremely minute bits of barbarian and semi-barbarian geopolitical areas in the South Asian Subcontinent. First of all, I would like to place on record what my interest in this book is. I do not have any great interest in the minor details of Malabar or Travancore. Nor about the various castes and their aspirations, claims and counterclaims. My interest is basically connected to my interest in the English colonial rule in the South Asian Subcontinent and elsewhere. I would quite categorically mention that it is English colonialism and not British Colonialism, which has a slight connection to Irish Gaelic and Welsh Celtic language populations. Even though I am not sure about this, I think the book Malabar was made as part of the Madras Presidency government's endeavour to create a district manual for each of the districts of Madras Presidency. William Logan was a District Collector of the Malabar district of Madras Presidency. Logan has claimed the authorship of this book. There are locations where other persons are attributed as the authors of those specific locations. Also, there is this statement: 'The tidy fact is that the whole book has been tampered with or doctored by many others who were the natives of this subcontinent. Their mood and mental inclinations are found in various locations of the book. The only exception might be the location where Logan himself has dealt with the history writing. More or less connected to the part where the written records from the English Factory at Tellicherry are dealt with. His claim asserted or hinted at of being the author of the text wherein he is mentioned as the author is in many parts possibly a lie. The book Malabar, ostensibly written by William Logan, does not seem to have been written by him. It is true that there is a very specific location where it is evident that it is Logan who has written the text. However, in the vast locations of the textual matter, there are locations where it can be felt that he is not the author at all.' William Logan's Malabar Manual, 2000

VICTORIA INSTITUTIONS, TRAVANCORE STATE MANUAL was written in the closing years of the 1800s It is a fascinating
book in that the perspective of historical events that took place in the region known as the Indian Peninsula is markedly
different from what is being taught in current day schools and colleges There is need to bring this book out in a very readable
form That is what has been attempted here VED from VICTORIA INSTITUTIONS has written a commentary which aims to
elucidate the various differences in perspective and also tries to focus on varying issues which are nowadays hidden away
from public knowledge What ultimately comes out as background of unvarying strength is the fact that the English rule
especially that by the English EAST INDIA COMPANY was really of benign qualities towards the common man of this area
This book contains the story of an independent kingdom at the southern most end of the South Asian Peninsula which lost its
independence in 1947 in the wake of a fool coming to power in England **Mappila Muslims** Husain Raṇṭattāṇi, 2007

By Sweat and Sword K. K. Nair, 2013 Going well beyond the usual narratives on Kerala history this study discusses the unique history of a state described in colonial documents as being perpetually at war but remarkably whose people have been historically happy Ever since its discovery Kerala's political climate was characterized by a variety of Chinese Arab European and local powers fighting each other for economic and military ascendancy And yet despite centuries of foreign contact and conflict it continued to thrive and retain its independence The influences Kerala absorbed were of its own choosing This book hypothesizes that this remarkable achievement was a direct consequence of Kerala's unique military diplomatic social and economic culture A society by no means perfect but fairly close causing British administrators to record that society in Kerala had arrived close to fulfilling the utilitarian dictum of the largest possible happiness of the largest numbers

THE NATIVE RACES OF SOUTH AFRICA GEORGE W. STOW, F.G.S., F.R.G.S. , This book can be downloaded as a PDF file from here This file contains the full book THE NATIVE RACES OF SOUTH AFRICA Along with that there is a commentary also The commentary may have its own significance The commentary does stand on this platform of being a commentary to the book However the commentary does not actually confine itself within this boundary Instead there is a wider attempt to understand non English social systems Attempts can be seen made to mention things that are there in these social systems about which the native English world has no information on In this connection the native English mindset as well as social ambience is being compared with the corresponding items in Continental Europe Asia South Asia Africa and Arabia as well as in South America c The pathway to this has been routed through the internal codes inside the native languages of these areas After that a very quaint mention is being made about how the various social systems all around the world can be brought to a level very serene refinement This is actually a location of intelligent and purposeful social engineering
