Sowards, 2020-04-16 Situated among the North Cascade Mountains of Washington State in the Glacier Peak Wilderness Area Miners Ridge contains vast quantities of copper Kennecott Copper Corporation's plan to develop an open pit mine there was when announced in 1966 the first test of the mining provision of the Wilderness Act passed by Congress in 1964 The battle over the proposed Open Pit Big Enough to Be Seen from the Moon as activists called it drew the attention of both local and

national conservationists who vowed to stop the desecration of one of the West's most scenic places Kennecott Copper had the full force of the law and mining industry behind it in asserting its extractive rights Meanwhile the U S Forest Service was determined to defend its authority to manage wilderness An Open Pit Visible from the Moon tells the story of this historic struggle to define the contours of the Wilderness Act its possibilities and limits Combining rigorous analysis and deft storytelling Adam M Sowards re creates the contest between Kennecott and its shareholders on one hand and activists on the other intent on maintaining wilderness as a place immune to the calculus of profit A host of actors cross these pages from cabinet secretaries and a Supreme Court justice to local doctors and college students all contributing to a drama that made Miners Ridge a cause célèbre for the nation's wilderness movement As locals testified at public hearings and writers penned profiles in the nation's magazines and newspapers the volatile political economy of copper proved equally influential in frustrating Kennecott's plans No law or court ruling could keep Kennecott from mining copper but the pit was never dug Identifying the contingent factors and forces that converged and coalesced in this case Sowards's narrative recalls a critical moment in the struggle over the nation's wild places even as it puts the unpredictability of history on full display

The People And the Word Robert Allen Warrior, Much literary scholarship has been devoted to the flowering of Native American fiction and poetry in the mid twentieth century Yet Robert Warrior argues nonfiction has been the primary form used by American Indians in developing a relationship with the written word one that reaches back much further in Native history and culture Focusing on autobiographical writings and critical essays as well as communally

authored and political documents *The People and the Word* explores how the Native tradition of nonfiction has both encompassed and dissected Native experiences. Warrior begins by tracing a history of American Indian writing from the eighteenth century to the late twentieth century then considers four particular moments: Pequot intellectual William Apess's autobiographical writings from the 1820s and 1830s; the Osage Constitution of 1881; narratives from American Indian student experiences including accounts of boarding school in the late 1880s; and modern Kiowa writer N. Scott Momaday's essay *The Man Made of Words* penned during the politically charged 1970s. Warrior's discussion of Apess's work looks unflinchingly at his unconventional life and death; he recognizes resistance to assimilation in the products of the student print shop at the Santee Normal Training School and in the Osage Constitution as well as in Momaday's writing. Warrior sees reflections of their turbulent times as well as guidance for our own. Taking a cue from Momaday's essay which gives voice to an imaginary female ancestor, Ko Sahn, Warrior applies both critical skills and literary imagination to the texts. In doing so, *The People and the Word* provides a rich foundation for Native intellectuals' critical work deeply entwined with their unique experiences. Robert Warrior is professor of English and Native American studies at the University of Oklahoma. He is author of *Tribal Secrets: Recovering American Indian Intellectual Traditions* (Minnesota, 1994) and coauthor with Paul Chaat Smith of *Like a Hurricane: The Indian Movement from Alcatraz to Wounded Knee*.
