web 3 2 2 model based controller model predictive control mpc forms an important class of advanced process controllers capable of utilizing system information through a well developed model and real time process measurements to predict future trajectory of the process as a result mpc minimizes the short term effects of unknowns and erratic

theory computation and design 2nd edition ucsb college of - Mar 10 2023

web of model predictive control mpc has seen tremendous progress first and foremost the algorithms and high level software available for solving challenging nonlinear optimal control problems have advanced significantly for this reason we have added a new chapter chapter 8 numerical optimal control and coauthor professor moritz m
