

## Welcome to NetCommand

NetCommand® is an intelligent control system that makes your Mitsubishi TV the heart of your home theater. With NetCommand, the TV sends signals to the other devices in the system via the IR emitters, telling the devices to play, record, change inputs, adjust volume, change channels and many more functions. All of this is accomplished with the TV's remote control.

### IR Learning and IEEE 1394 Support

The "IR Learning" feature of NetCommand allows the TV to learn the remote control signals for new devices that the TV is not already preprogrammed to operate. NetCommand® also includes the ability to control IEEE 1394 devices by sending control signals on a FireWire® cable.

### Using NetCommand is completely optional

When you first turn on the TV, the NetCommand Setup Wizard launches. Quit the Setup Wizard if you would rather set up NetCommand later or not use NetCommand at all.

## Setting Up NetCommand

To set up NetCommand, you select the devices connected to your TV that you want NetCommand to control.

### To set up NetCommand when you turn on your TV for the first time:

- When you turn on your Mitsubishi TV for the first time, a Setup screen opens.
- Follow the on-screen instructions and steps 3–4 below.

### To set up NetCommand at any other time:

1. Press TV MENU to open the main TV menu.
2. Select the NetCommand icon and press ENTER, then select Initial and press ENTER.
3. Press ADJUST ◀ or ▶ to highlight a device type (A/V receiver, cable box, satellite receiver, VCR, DVD player, camcorder, PC).
4. To select the manufacturer and model for each device type, press ADJUST ▲ or ▼.
  - For each device type, if the manufacturer and model are not listed, select Other.
  - For every device type you do not intend to connect to your TV, select None.

*Exception:* If a camcorder or PC is connected, press ENTER to select it. Press ENTER again to deselect camcorder or PC.

5. After you have chosen all device types, select **Next >**. You can now choose to set up TV Guide On Screen® before finalizing your choices in the Review screen.

Device Setup screen

## Managing Your Home Theater

Use the Edit NetCommand screen to add new devices, change device settings and connections, delete devices, and use the "Learn" feature for remote control signals not already in memory. On-screen instructions guide you through each step. Your choices are:

**Add:** Add a new device to the NetCommand setup.

**Change:** Change the brand/model or input connections of a device already listed. "Learn" the remote control signals of devices listed as "Other" brands.

**Guide:** Activate/deactivate TV Guide On Screen®, change ZIP code, add or change TV Guide On Screen input selections.

**Review:** View a list of all devices and input connections in the NetCommand home theater configuration. Turn unused TV inputs or devices on/off.

**Delete:** Remove a device or erase the NetCommand home-theater configuration.

**Initial:** Start setup at the beginning. This option is only available after deleting the complete configuration or if NetCommand was not set up when the TV was first powered on.

### Adding IEEE 1394 Devices

Compatible IEEE-1394 devices are automatically detected by the TV. Connect the IEEE-1394 device to the network and power it on. A series of screens will guide you through the setup process. See your TV Owner's Guide for detailed information.
