**Engineering Rules** JoAnne Yates, Craig N. Murphy, 2019-06-11 The first global history of voluntary consensus standard setting Finalist Hagley Prize in Business History The Hagley Museum and Library The Business History Conference Private voluntary standards shape almost everything we use from screw threads to shipping containers to e readers They have been critical to every major change in the world economy for more than a century including the rise of global manufacturing and the ubiquity of the internet In *Engineering Rules* JoAnne Yates and Craig N Murphy trace the standard setting system s evolution through time revealing a process with an astonishingly pervasive if rarely noticed impact on all of our lives This type of standard setting was established in the 1880s when engineers aimed to prove their status as professionals by creating useful standards that would be widely adopted by manufacturers while satisfying corporate customers Yates and Murphy explain how these engineers processes provided a timely way to set desirable standards that would have taken much longer to emerge from the market and that governments were rarely willing to set By the 1920s the standardizers began to think of themselves as critical to global prosperity and world peace After World War II standardizers transcended Cold War divisions to create standards that made the global economy possible Finally Yates and Murphy reveal how since 1990 a new generation of standardizers has focused on supporting the internet and web while applying the same standard setting process to regulate the potential social and environmental harms of the increasingly global economy Drawing on archival materials from three continents Yates and Murphy describe the positive ideals that sparked the standardization movement the ways its leaders tried to realize those ideals and the challenges the movement faces today *Engineering Rules* is a riveting global history of the people processes and organizations that created and maintain this nearly invisible infrastructure of today s economy which is just as important as the state or the global market *Handbook of Research on Renewable Energy and Electric Resources for Sustainable Rural Development* Kharchenko, Valeriy, Vasant, Pandian, 2018-01-19 This title is an IGI Global Core Reference for 2019 as it is one of the best selling reference books of 2018 within the Environmental Agricultural and Physical Sciences subject area containing emerging research on electric resources and renewable energy sources photovoltaic pv solar thermal modules and related topics Due to the publication s international perspectives it a critical resource outlining the advanced achievements in the field of electro technologies and as such it has been accepted for its comprehensive coverage in Scopus The *Handbook of Research on Renewable Energy and Electric Resources for Sustainable Rural Development* is a critical scholarly resource that examines efficient use of electric resources and renewable energy sources which have a positive impact on sustainable development Featuring coverage on cogeneration thermal modules photovoltaic pv solar and renewable energy systems RES application practices this publication is geared towards academics practitioners professionals and upper level students interested in the latest research on renewable energy and electric resources for sustainable rural development *Despeckle Filtering for Ultrasound Imaging and Video* Christos

Christos P. Loizou,Constantinos S. Pattichis,2022-05-31 It is well known that speckle is a multiplicative noise that degrades image and video quality and the visual expert s evaluation in ultrasound imaging and video This necessitates the need for robust despeckling image and video techniques for both routine clinical practice and tele consultation The goal for this book book 1 of 2 books is to introduce the problem of speckle occurring in ultrasound image and video as well as the theoretical background equations the algorithmic steps and the MATLAB™ code for the following group of despeckle filters linear filtering nonlinear filtering anisotropic diffusion filtering and wavelet filtering This book proposes a comparative evaluation framework of these despeckle filters based on texture analysis image quality evaluation metrics and visual evaluation by medical experts Despeckle noise reduction through the application of these filters will improve the visual observation quality or it may be used as a pre processing step for further automated analysis such as image and video segmentation and texture characterization in ultrasound cardiovascular imaging as well as in bandwidth reduction in ultrasound video transmission for telemedicine applications The aforementioned topics will be covered in detail in the companion book to this one Furthermore in order to facilitate further applications we have developed in MATLAB™ two different toolboxes that integrate image IDF and video VDF despeckle filtering texture analysis and image and video quality evaluation metrics The code for these toolsets is open source and these are available to download complementary to the two books Table of Contents Preface Acknowledgments List of Symbols List of Abbreviations Introduction to Speckle Noise in Ultrasound Imaging and Video Basics of Evaluation Methodology Linear Despeckle Filtering Nonlinear Despeckle Filtering Diffusion Despeckle Filtering Wavelet Despeckle Filtering Evaluation of Despeckle Filtering Summary and Future Directions References Authors Biographies      *The British National Bibliography* Arthur James Wells,1992      **Memorandum and Articles of Association** Electrical Research Association,1971
