## Get ready for your exam 4 page 78–79

- Look back at Get ready for your exam 3 and ask students what they found difficult. What are they going to concentrate on this time? What will they try to do differently? Elicit the most common problems or concerns, and discuss strategies for dealing with them.

## Reading

- Before doing the preparation tasks, ask students what they know about the American War of Independence.
- Students skim the text and choose the best summary in exercise 1. You can make this into a competition by asking students to raise their hand when they have chosen their answer.
- Students do preparation exercise 2 to help them with key vocabulary. They can work in pairs to check the words in a dictionary.
- The Reading task (matching headings to paragraphs) can be done in class or set for homework. If students do it for homework, tell them not to do the task too quickly. It should take them about 10 minutes. They should not use dictionaries when doing the Reading task.
- Ask students to read the text more carefully and do the Reading task. Remind them to:
  - check all the headings with each of the paragraphs, so that they can correct themselves if they have made a mistake.
  - underline words or phrases that help them to choose the correct heading.
- When students have done the task (even for homework), ask them to check their answers in pairs. They should explain why they have chosen a certain answer.
- Check the answers with the class. Ask students to refer to the text to support their choices. Don't give students the key if their answers are wrong, but let them discuss queries with the class.

## Use of English

- The Use of English task (choosing the correct answers) can be done in class or at home.
- Before doing the task, give students the following advice:
  - read the text to get an idea of what it is about.
  - think about which of the three options fits the meaning and grammar of the sentence.
  - read the text again when you have finished to check your answers.
- If students do the task in class, they can work individually or in pairs. If they work individually, let them compare their answers in pairs.
- When students have done the task (even for homework), check the answers with the class. Don't give students the key. Elicit the answers from them and let them discuss any points of disagreement.

## Writing

- Before students do the Writing task (an e-mail), refer them to preparation task on page 78.
- Students do the preparation task either individually or in pairs. Then check the answers with the whole class.
- Students do the Writing task in class. Walk round the class, helping as necessary.
- If your students have problems with writing, you could ask them to write the e-mail in groups of three. When they have finished, they can check another group's work. They should check that all the required information has been included, and also check grammar and vocabulary. They shouldn't correct the drafts, but only underline mistakes. Students then write their final draft.
- If your students enjoy writing, you can ask them to "send" e-mails to each other (on a piece of paper) and to write a reply. To motivate them further, you could ask them to send a real e-mail to you.

## Listening

- The recordings for the Listening tasks are on the MultisROM. Remember that students should hear each recording twice.
- Before students do the Listening task (multiple choice), refer them to the preparation tasks on page 79.
- The aim of exercises 1 and 2 is to activate students' background knowledge and to revise key vocabulary. Students do the

exercises in pairs first before checking with the whole class.

- For exercise 3, ask students to read the task instructions, and the questions and options. Get them to predict the content of the recording.
- Tell students it is not necessary to understand every word of the recording, and they should concentrate on the meaning.
- Play the recording through once and get students to note their answers.
- Students check their answers in pairs. Play the recording again so that students can check / complete their answers.
- Check the answers with the class. If students are unsure of any of the answers, play the relevant section of the recording again and get them to listen and repeat.

## Speaking

- Before students do the Speaking task (talking about past events), refer them to the preparation tasks and tips on page 79.
- Students complete the dialogue in preparation exercise 1. This revises grammar and helps to provide ideas for the task. You could ask students what else they could say to answer each of the questions.
- Refer students to exercise 2 and elicit the tense students need to use.
- Give students time to write notes in exercise 3.
- Elicit other possible questions that students can use in the Speaking task.
- Demonstrate the task with one or two confident students.
- Students do the Speaking task in pairs, using the questions from preparation exercise 1 and others you have elicited.
