**Orthogeriatrics** Paolo Falaschi, David Marsh, 2020-08-20. Open access publication has been possible through an unconditional educational grant from UCB. This new open access edition supported by the Fragility Fracture Network aims at giving the widest possible dissemination on fragility fracture, especially hip fracture management, and notably in countries where this expertise is sorely needed. It has been extensively revised and updated by the experts of this network to provide a unique and reliable content in one single volume. Throughout the book, attention is given to the difficult question of how to provide best practice in countries where the discipline of geriatric medicine is not well established and resources for secondary prevention are scarce. The revised and updated chapters on the epidemiology of hip fractures, osteoporosis, sarcopenia, surgery, anaesthesia, medical management of frailty, peri-operative complications, rehabilitation, and nursing are supplemented by six new chapters. These include an overview of the multidisciplinary approach to fragility fractures and new contributions on pre-hospital care, treatment in the emergency room, falls prevention, nutrition, and systems for audit. The reader will have an exhaustive overview and will gain essential practical knowledge on how best to manage fractures in elderly patients and how to develop clinical systems that do so reliably.
