Children and Forced Migration Marisa O. Ensor, Elżbieta M. Goździak, 2017-02-23 This book responds to the reality that children and youth constitute a disproportionately large percentage of displaced populations worldwide It demonstrates how their hopes and aspirations reflect the transient nature of their age group and often differ from those of their elders It also examines how they face additional difficulties due to the inconsistent definition and uneven implementation of the traditional durable solutions to forced migration implemented by national governments and international assistance agencies The authors use empirical research findings and robust policy analyses of cases of child displacement across the globe to make their central argument that the particular challenges and opportunities that displaced children and youth face must be investigated and factored into relevant policy and practice promoting more sustainable and durable solutions in the process This interdisciplinary edited collection will appeal to students and scholars of forced migration studies development conflict and peace building and youth studies along with policy makers children's rights organizations and NGOs

Tourism, Conflict and Contested Heritage in Former Yugoslavia Josef Ploner, Patrick Naef, 2018-12-07 Described as cultural crossroads or mosaic powder keg border bridge or Europe's Other the region comprising former Yugoslavia has over time conjured up ambiguous imaginaries associated with political unrest national contest and ethnic divide Since the disintegration of Yugoslavia and the succeeding Yugoslav Wars of the 1990s both the geography and historiography of the region have been thoroughly reconfigured which has impacted the ways in which heritage is interpreted and used at local regional and national levels In this ongoing process of heritage re interpretation tourism is more than just a dark spectacle While it can be seen as a catalyst through which to filter or normalise dissonant memories it can also be utilised as a powerful ideological tool which enables the narrative reinvention of

contested traditions and divisive myths Drawing on case studies from Bosnia Herzegovina Croatia and Kosovo this volume generates new and fascinating insights into the contested terrain of heritage tourism in former Yugoslavia It explores the manifold ways in which tourism stakeholders engage with capitalise on and make sense of sites and events marked by conflict and trauma Unlike many previous studies this book features contributions by emerging early career scholars emanating from within the region and working across disciplines such as anthropology art history geography and political studies This book was originally published as a special issue of the Journal of Tourism and Cultural Change

Butts Heather Radke, 2022-11-29 Winning cheeky and illuminating What appears initially as a folly with a look at this cover and title becomes thanks to Radke's intelligence and curiosity something much meatier entertaining and wise The Washington Post Lively and thorough Butts is the best kind of nonfiction Esquire Best Books of 2022 A carefully researched and reported work of cultural history The New York Times that explores how one body part has influenced the female and human experience for centuries and what that obsession reveals about our lives today Whether we love them or hate them think they're sexy think they're strange consider them too big too small or anywhere in between humans have a complicated relationship with butts It is a body part unique to humans critical to our evolution and survival and yet it has come to signify so much more sex desire comedy shame A woman's butt in particular is forever being assessed criticized and objectified from anxious self examinations trying on jeans in department store dressing rooms to enduring crass remarks while walking down a street or high school hallways But why In *Butts* A Backstory reporter essayist and RadioLab contributing editor Heather Radke is determined to find out Spanning nearly two centuries this whip smart Publishers Weekly starred review cultural history takes us from the performance halls of 19th century London to the aerobics studios of the 1980s the music video set of Sir Mix a Lot's Baby Got Back and the mountains of Arizona where every year humans and horses race in a feat of gluteal endurance

Along the way she meets evolutionary biologists who study how butts first developed models whose measurements have defined jean sizing for millions of women and the fitness gurus who created fads like Buns of Steel She also examines the central importance of race through figures like Sarah Bartmann once known as the Venus Hottentot Josephine Baker Jennifer Lopez and other women of color whose butts have been idolized envied and despised Part deep dive reportage part personal journey part cabinet of curiosities Butts is an entertaining illuminating and thoughtful examination of why certain silhouettes come in and out of fashion and how larger ideas about race control liberation and power affect our most private feelings about ourselves and others
