*Malevolent Legalities* Kevin S. Jobe, 2024-10-29 Malevolent Legalities draws upon archival research conducted at the Scalia Papers at the Harvard Law School Historical and Special Collections to examine the influence of Justice Antonin Scalia's judicial philosophy of textualist originalism on the US Supreme Court's antidiscrimination jurisprudence The book focuses on six US Supreme Court cases organized into two parts The main argument of the book grounded in archival and legal materials is that textualist originalism makes it lawful for discrimination to be performed through the text and explicitly seeks to prevent progress by enacting a regime of static law In *Shelby County v Holder* 2013 Justice Ginsburg remarked that

discrimination today behaves like the Hydra the many headed serpent in Ancient Greek mythology which regenerates each time its head is severed The analysis of archival and legal materials is therefore prefaced by the development of a unique methodology for studying discrimination called discriminatology understood as a framework for analyzing how discrimination persists through time is performed through the text and is a product of the manipulation of legal speech In this way Malevolent Legalities approaches the study of textualist originalism as itself a vehicle for discrimination performed mala fide or in bad faith
