Meyers, 1995 **Adoption and Multiculturalism** Jenny Heijun Wills, Tobias Hubinette, Indigo Willing, 2020-09-11 Adoption and

Multiculturalism features the voices of international scholars reflecting transnational and transracial adoption and its relationship to notions of multiculturalism. The essays trouble common understandings about who is being adopted, who is adopting, and where these acts are taking place, challenging in fascinating ways the tidy master narrative of saviorhood and the concept of a monolithic Western receiving nation. Too often the presumption is that the adoptive and receiving country is one that celebrates racial and ethnic diversity, thus making it superior to the conservative and insular places from which adoptees arrive. The volume's contributors subvert the often simplistic ways that multiculturalism is linked to transnational and transracial adoption and reveal how troubling multiculturalism in fact can be. The contributors represent a wide range of disciplines, cultures, and connections in relation to the adoption constellation, bringing perspectives from Europe, including Scandinavia, Canada, the United States, and Australia. The book brings together the various methodologies of literary criticism, history, anthropology, sociology, and cultural theory to demonstrate the multifarious and robust ways that adoption and multiculturalism might be studied and considered. Edited by three transnational and transracial adoptees, *Adoption and Multiculturalism: Europe, the Americas, and the Pacific* offers bold new scholarship that revises popular notions of transracial and transnational adoption as practice and phenomenon.

Travel Guide to the People's Republic of China Ruth Lor Malloy, 1980 **Guilin Scenery** 桂林, 1984 **Drawing from Life** Christine I. Ho, 2020-02-11

Drawing from Life explores revolutionary drawing and sketching in the early People's Republic of China, 1949-1965, in order to discover how artists created a national form of socialist realism. Tracing the development of seminal works by the major painters Xu Beihong, Wang Shikuo, Li Keran, Li Xiongcai, Dong Xiwen, and Fu Baoshi, author Christine I. Ho reconstructs how artists grappled with the representational politics of a nascent socialist art. The divergent approaches, styles, and genres presented in this study reveal an art world that is both heterogeneous and cosmopolitan. Through a history of artistic practices in pursuit of Maoist cultural ambitions to forge new registers of experience, new structures of feeling, and new aesthetic communities, this original book argues that socialist Chinese art presents a critical alternative vision for global modernism. 中国书画函授大学肇庆分校, 1988
