Railing, Reviling, and Invective in English Literary Culture, 1588-1617 Maria Teresa Micaela Prendergast, 2016-04-08 Railing Reviling and Invective in English Literary Culture 1588 1617 is the first book to consider railing plays and pamphlets as participating in a coherent literary movement that dominated much of the English literary landscape during the late

Elizabethan early Jacobean period Author Prendergast considers how these crisis ridden texts on religious gender and aesthetic controversies were encouraged and supported by the emergence of the professional theater and print pamphlets She argues that railing texts by Shakespeare Nashe Jonson Jane Anger and others became sites for articulating anxious emotions including fears about the stability of England after the death of Queen Elizabeth and the increasing factional splits between Protestant groups But given that railings about religious and political matters often led to censorship or even death most railing writers chose to circumvent such possible repercussions by railing against unconventional gender identity perverse sexual proclivities and controversial aesthetics In the process Prendergast argues railers shaped an anti aesthetics that was itself dependent on the very expressions of perverse gender and sexuality that they discursively condemned an aesthetics that created a conceptual third space in which bitter enemies male or female conformist or nonconformist could bond by engaging in collaborative experiments with dialogical invective By considering a literary mode of articulation that vehemently counters dominant literary discourse this book changes the way that we look at late Elizabethan and early Jacobean literature as it associates works that have been studied in isolation from each other with a larger coherent literary movement
