How to Improve Governance David Ferranti,Justin Jacinto,Anthony J. Ody,2009-09-01 In recent years the developing world has seen a burst of efforts to reduce corruption increase transparency and accountability and improve governance Needless to say this is an important and encouraging development However the lack of a reliable compass to describe where a country is at a given moment and where it could be heading in the absence or acceptance of proposed reforms can result in disastrous missteps The unfortunate absence of such a guide has helped lead to innumerable failed governments or ineffective regimes This important book aims to fill that void How to Improve Governance emphasizes the need for an overall analytical framework that can be applied to different countries to help analyze their current situations identify potential areas for improvement and assess their relative feasibility and the steps needed to promote them A country specific analysis needs to be comprehensive in the sense that it includes the four concepts of transparency accountability governance and anticorruption throughout the calculus Without such an analytic framework any reform attempt is likely to flounder for lack of a shared understanding of the underlying problems and of the feasible reforms The book gives special emphasis to the potential for civil society groups to play a stronger role in holding governments accountable for their use of public resources and to the importance of developing politically feasible prioritized country strategies for reform Whether one looks at how to increase domestic demand for good governance how to make government more accountable to the public or how to build democratic processes that deliver results the underlying issues are essentially the same As development actors of various types seek to help more and more of them are calling for a clearer conceptual framework to guide their efforts From the Introduction

The Anti-Politics Machine of Neo-Liberal Development and Local Responses* Tobias Haller, Fabian Käser, Mariah Ngutu, 2021-01-06 This Special Issue contributes to the debate on land grabbing as commons grabbing with a special focus on how the development of state institutions formal laws and regulations for agrarian development and compensations and voluntary corporate social responsibility CRS initiatives have enabled the grabbing process It also looks at how these institutions and CSR programs are used as development strategies of states and companies to legitimate their investments This Special Issue includes case studies from Kenya Morocco Tanzania Cambodia Bolivia and Ecuador analysing how these strategies are embedded into neo liberal ideologies of economic development We propose looking at James Ferguson's notion of the Anti Politics Machine 1990 that served to uncover the hidden political basis of state driven development strategies We think it is of interest to test the approach for analysing development discourses and CSR policies in agrarian investments We argue based on a New Institutional Political Ecology NIPE approach that these legitimize the institutional change from common to state and private property of land and land related common pool resources which is the basis of commons grabbing that also grabbed the capacity for resilience of local people Ethnicity, Gender and the Subversion of Nationalism Bodil Folke Frederiksen, Fiona Wilson, 2014-02-04 This volume explores the politics of identity by analysing the intersections between ethnicity gender and nationalism in developing societies These markers of identity are not understood as constituting essences but as springing from people's core experiences yearnings and strategic life plans in a context where resources are scarce As such identities may be and are contested The intersections are traced across three areas social and cultural reproduction ideologies stereotypes and practices and nationalist politics and discourse which has tended to remove women from the public arena and construct an ideal of women's domesticity **Global Aging, Second Edition** Frank J.
