Science Research and Education in Africa Alain L. Fymat, Joachim Kapalanga, 2017-03-07. For this reason, the Society for the Advancement of Science in Africa was established to catalyze and contribute to this needed evolution. Its mission is to contribute to Africa's economic advancement and sustainability through science research, education, and innovation. This book provides a selection of papers from the Advancement of Science in Africa's third annual conference. The conference was held under the overarching theme of science research and education in Africa, with several important sub-themes including, but not limited to, improving health research and disease surveillance, education, epidemic diseases with high mortality, promoting women's interest in science careers, fostering youth development with science education. The collection illustrates how, although the chapter contributors come from various countries and universities representing their own academic research, they all share a common interest in advancing science research and education in Africa.
